

# TELLS PITTSBURGH MEN TO OBEY LAWS

PRESIDENT DID NOT MINCE WORDS IN DEFENDING THE SHERMAN LAW AT BANQUET.

## TAFT WAS REAL ANGRY

Felt He Was Being Dated for Political Purposes and Put His Whole Soul Into Answer.

[BY UNITED PRESS.]  
Morgantown, W. Va., Nov. 1.—There was rejoicing in the Taft camp today and the President was congratulated over his victory last night, also there was no little indignation over what the Taft supporters declared was a deliberate "baiting" of the President by the Pittsburgh Chamber of Commerce.

Had to Listen.  
Before an audience that included perhaps hundreds of Pittsburgh millionaires, and at least one hundred and fifty minor officials of the Steel Trust subsidiaries, the President was forced to sit while he heard representative Martin W. Littleton, the democratic representative from New York denounce the Sherman anti-trust law and demand its repeal.

Out Few Minutes.  
When Littleton concluded amid wild cheering the President had but fifteen minutes up to the time his train was scheduled to leave Pittsburgh, and for the first time since he became President, Taft got mad right out in public.

Realizing he was being baited for a political holiday he went right after Littleton's argument.

Real Speech.  
With more vigor than he had ever before put into public utterance, the President defended the law. With his face suffused, and his huge body swaying from side to side, he swung his fist at the Pittsburghers and told them they must obey the law.

His Introduction.  
"This question has been eloquently considered by my friend Littleton," said President Taft, "and I regret the matter has come up here. It savors of harshness to have a difference of opinion on an occasion of this kind. But I must say what I think."

Given Definite Meaning.  
"The Sherman law has been on the statute books for twenty years and has been construed, and construed, and construed, and finally by the Supreme court. The two decisions last spring, in my judgment, give it definite meaning, that any combination in restraint of trade, with the purpose of controlling prices and stifling competition is a violation of the statute. Now know whether they intend to stifle competition, to control the price, and all that is necessary in a court of law is to prove the combination and the intent. That is all that is needed for the enforcement of any criminal statute."

It is not pleasant to be engaged in what may seem to be an assault on business, but business men thought this law could not be enforced. Now the law can and is being enforced, and because of this we hear it is to be repealed.

Must Have Competition.  
"I would cut my hand off before I would injure business. But what has my dear friend Littleton to offer? Only one course is open. Either we will have individualism or we will have combination. In restraint of trade going to that point where people demand that the power of men engaged in such corporations be transferred to the government. And then we will have state socialism."

"Now that we can disintegrate unlawful corporations and put them under injunction. If they operate they must compete."

"I know I am speaking against the trend of many of you, but I cannot help it. The law is on the statute books and must be enforced and this stifling of competition and this control of prices must cease."

"I did not want to get into this discussion, but I want you business men to face this problem."

# ITALY WILL SEEK TO ANNEX THE ISLANDS TURKEY NOW OWNS?

Warns Its Opponents to Stop Fighting in Tripoli or Take the Consequences of Losing Possessions.

[BY ASSOCIATED PRESS.]  
Chicago, Nov. 1.—With a view of ending the war with Turkey quickly, the Italian cabinet has decided that the port must either accept peace immediately or lose more territory.

This means that some of Turkey's valuable island possessions in the Mediterranean will be seized unless she submits to her fate.

Capture Italian General.  
Constantinople, Nov. 1.—General Canova, commanding the Italian army in Tripoli, has been captured by the Turks, according to official reports given out at the war ministry here today. Considerable doubt is expressed in foreign diplomatic circles here as to the report.

The capture was effected, it is said, during a desperate fight between the Turkish and Italian forces on one side, and the Italian forces on the other, in the streets in the outskirts of Tripoli.

War minister Cretschka Pasha is himself authority for the announcement today that the Turks captured five more forts at Tripoli yesterday after three hours hard fighting.

The Italians are being reinforced daily, the war minister says, but to offset this, Arabs from the interior are flocking to the Turkish standard.

# ROCK ISLAND TRAIN ROBBED BY BANDITS

Masked desperadoes held up train and escaped with about \$5,000 near Memphis.

[BY UNITED PRESS.]  
Memphis, Tenn., Nov. 1.—Two masked bandits who early today held up Rock Island train No. 42, near Hurlburg, Ark., just across the Mississippi river from this place, escaped with a big bag of money and registered mail.

It was positively reported here that the bandits have obtained \$5,000 from a safe of the United States express company, part of a big shipment of specie. Confirmation of this report was not to be secured from the local offices of the company here.

# TOWN SURVEYED BY LINCOLN CELEBRATES

Bath, Ill., Observes Seventy-fifth Anniversary of Its Laying Out With Appropriate Exercises.

[SPECIAL TO THE GAZETTE.]  
Bath, Ill., Nov. 1.—A sunnier salute aroused the residents of Bath today, when, with hundreds of visitors from all over the county, they celebrated the seventy-fifth anniversary of the laying out of the town by Abraham Lincoln, then a struggling young surveyor. Elaborate preparations had been made for the event, and early in the day the streets were thronged with visitors. Stores and residences were brightly decorated with flags, bunting and appropriate pictures and mottoes. The anniversary exercises were held in a large tent, where the crowd listened to addresses by Congressman Henry T. Haney and other speakers of prominence.

# INFORMATION WAS GRANTED TO JURY

Account Books and Other Valuable Evidence Given to Men Investigating McNamara Case.

[BY ASSOCIATED PRESS.]  
Indianapolis, Nov. 1.—Possession of the account books of the International Association of Bridge and Structural Iron Workers and other evidence of the so-called McNamara dynamiting case was today granted to the federal grand jury by Judge Markey of the county court.

# YOUNG FARM HAND IS STABBED IN EYE WITH A PITCH FORK

Edward Quinn Had Painful Accident This Morning When Fork Tine Penetrated Left Eyelid—Sight Retained.

Edward Quinn, a young farm hand employed by George Campbell on a farm three miles west of the city, was accidentally stabbed over the left eyelid by the tine of a pitchfork in the hands of a fellow workman who was pitching corn fodder from a wagon to a stack upon which Quinn was standing this morning.

The sharp instrument passed over the eye and through the eyelid so that the sight was not destroyed but injury was severe and painful. He was rushed to the office of Dr. James Mills who dressed the wound and made the sufferer as comfortable as possible. Both eyes were badly swollen, making treatment difficult, but it is thought that there will be no damage to his sight.

# TO PROMOTE CHILD WELFARE.

Portland Ore., Nov. 1.—A child welfare exhibition similar to the exhibitions held recently in New York and Chicago, was opened in the Armory in this city today, under the auspices of the Oregon Congress of Mothers. Simultaneously with the exhibition which will continue five days, there is to be held a conference for the discussion of the care of infants, the playground movement, settlement work and kindred topics.

# GEORGIA LUTHERANS IN SESSION.

[SPECIAL TO THE GAZETTE.]  
Augusta, Ga., Nov. 1.—The annual convention of the Lutheran Synod of Georgia opened in this city today and will continue in session until the first of next week. The attendance includes more than one hundred delegates and visitors, among whom are leading ministers and prominent lay members of the denomination, from all parts of the state.

# COMMISSENER HERE: J. Q. EMORY.

State dairy and food commissioner, stopped in Janesville this morning to take breakfast, while on the way to his home in Madison from a trip to the western part of the state.

# ATTORNEYS IN TILT AT SESSION TODAY IN LORIMER MATTER

Heavily Objected to Question Being Repeated by Haney.—Both Men Reprimanded.

[BY ASSOCIATED PRESS.]  
Chicago, Nov. 1.—Attorneys Haney and Healy had a lively tilt during the examination of state's attorney Burke of Sangamon county at the Lorimer investigation committee's hearing today. Heavily objected to Haney repeating the question and asked the chairman to suppress Lorimer's counsel. Haney declared he wouldn't be suppressed nor could his client be railroaded. Both attorneys were reprimanded.

# BEGIN HEARINGS ON FULL CREW MEASURE

New Jersey Utilities Board Considering Provisions of Important Railway Regulation Bill.

[SPECIAL TO THE GAZETTE.]  
Trenton, N. J., Nov. 1.—The State Board of Public Utilities Commissioners today began public hearings to consider the provisions of the so-called full crew bill. The bill provides that every passenger train having five cars or more, operating in New Jersey, shall have a crew consisting of one engineer, one fireman, one conductor and one brakeman. The railroad vigorously opposed the measure when it came before the legislature last winter and it was defeated. The senate, however, by resolution directed the Utilities Board to investigate the provisions of the bill and to report to the next legislature.

# TERRIBLE STORMS IN THE NORTHWEST

Reports From Manitoba Show Heavy Fall of Snow and Intense Cold.

[BY UNITED PRESS.]  
Winnipeg, Man., Nov. 1.—The official thermometer reading here today was 30.7, the lowest point ever recorded in this city this time of the year and it is said to be a record for Manitoba. A terrific blizzard is raging around the north end of Lake Winnipeg and latest advices tell of 14 inches of snow.

# BLIZZARD RAGING.

Calumet, Mich., Nov. 1.—A blizzard rages over the entire Lake Superior region today and snow to depth of many inches has fallen. Navigation is badly hindered on the lake due to heavy snow fall. Skiffs are being used here today for first time of year.

# OFF FOR AUSTRALIA.

[SPECIAL TO THE GAZETTE.]  
Vancouver, B. C., Nov. 1.—With the good wishes of a host of friends and under the American team which will try to bring back from Australia the Dwight P. Davis International Tennis Cup, sailed for Sydney today on the steamship Valandina. The captain of the team is William A. Larned of New York, seven times lawn tennis singles champion of the United States. The other members of the American challenging team are Beals C. Wright of Boston and Maurice E. McLoughlin of California.

# COMMISSIONER HERE: J. Q. EMORY.

State dairy and food commissioner, stopped in Janesville this morning to take breakfast, while on the way to his home in Madison from a trip to the western part of the state.

# STEPHENSON PROBE ADJOURNED TODAY; HINES IN DENIALS

Senate Investigating Committee Finishes Milwaukee Hearing, After Hines Makes More Denials.

[BY ASSOCIATED PRESS.]  
Milwaukee, Nov. 1.—The senate committee investigating the charges of bribery as to the election of Senator Stephenson, today adjourned, to meet later in Washington. Edward Hines, the lumberman, today again denied before the committee that he had anything to do with the election of Stephenson. He denied he went to Washington and suggested to Stephenson that he give money "to put the election over." He also denied he had any dispute with Robert Shields over money.

Senator Stephenson was the last witness, repeating his former testimony that he left the details of the expenditures of the primary campaign to others. He never knew Shields, he said, and had no political dealings with Hines. He particularly denied he was approached by Hines in Washington for money to purchase votes in the Wisconsin legislature or ever signed a check in blank and had given it to Shields.

Stephenson said after the adjournment: "I am confident that there has not been presented any evidence upon which to sustain any charges."

# THREE POLICEMEN FATALLY WOUNDED BY DRUNKEN BLACK

Negro Running Amuck on New Orleans Ferry Boat Creates Terrible Havoc Before Shot to Death.

[BY UNITED PRESS.]  
New Orleans, La., Nov. 1.—An unidentified negro, crazed with drink, ran amuck on a ferry boat in the middle of the Mississippi today, shot and fatally wounded three policemen who attempted to stop him and seriously wounded five citizens.

The black was shot to death by half a dozen men who pursued him. It is feared this may precipitate a race war.

# BANKER TAKEN FOR A STRIKE-BREAKER

President of Bank at Terrell, Texas, Badly Beaten by Union Strikers at New Orleans.

[BY UNITED PRESS.]  
New Orleans, La., Nov. 1.—Walter P. Allen, president of the American National bank of Terrell, Texas, and a close friend of Governor Colquhoun, was mistaken for a strike-breaker while on his way to the depot here today and terribly beaten by three men reported to be Illinois Central strike sympathizers. His condition is reported as serious. It is feared he will die from concussion of the brain.

# FIRE TAKES HOTEL AT MASON CITY, IA.

Block and Property Valued at \$75,000 Destroyed by Flames.

[BY ASSOCIATED PRESS.]  
Mason City, Ia., Nov. 1.—The block containing the Wilson theatre and hotel and the Cero Gardo hotel, was today damaged by fire to the extent of \$75,000. Many guests had narrow escapes but none were hurt.

# TO INSPECT AUTO FACTORIES ABROAD.

[SPECIAL TO THE GAZETTE.]  
New York, Nov. 1.—A good-sized delegation representing the American Society of Automobile Engineers, sailed on the Mauretania today to attend a joint meeting with the Incorporated Institution of Automobile Engineers. The meeting will be held in London next week and after it is concluded the American party will inspect many of the largest automobile factories in England and on the continent.

# ACCIDENT TO HUNTER: WILLIAM KINES WHILE ON A HUNTING EXPEDITION YESTERDAY IN THE VICINITY OF THE STONE CRUSHER PLANT, HAD HIS FOOT BADLY INJURED IN THE ACCIDENTAL DISCHARGE OF HIS GUN. HE WAS TAKEN TO MERCY HOSPITAL FOR TREATMENT.

# HITTING THE MARK

Want Advertising is like shooting direct at a target. Many people look over the announcements under the various classifications in the Want Columns each day, seeking definite information regarding some particular opportunity; so it is that the Wants are a target that is easy to hit.

The great majority of Want readers are prepared to take advantage of certain announcements if they can find just what they want enumerated in the offerings of the Wants.

Want advertising in the Gazette is remarkably successful, appealing as it does to the urgent needs of all kinds of business and playing an important part in household economy.

Are you making the Wants useful to you?

JUST LIKE THE BIG FELLOW.

Cuba has now purchased a navy of two war ships to be used in revenue and coast service.

# SOCIALISTS AHEAD IN PRIMARY VOTE AT LOS ANGELES

Has a Plurality of Several Thousand Votes Over Republican Candidate in Latest Return.

[BY UNITED PRESS.]  
Los Angeles, Nov. 1.—Returns from two hundred and forty-two precincts today gave John Hartmann, the socialist candidate for election, a plurality of 2,132 votes over George Alexander, republican, as a result of yesterday's primaries. This made it certain that neither candidate will get a plurality of all votes cast and the issue will be decided at the next general election, December 5. The returns also show that the socialist party nominated their complete city ticket.

# NEW PREMIER WILL END THE STRUGGLE

HAS POWER ALMOST EQUAL TO THAT OF EMPEROR AND BEGINS HIS OVERTURES WITH REBELS AT ONCE.

[BY UNITED PRESS.]  
Peking, China, Nov. 1.—Yuan was appointed premier of China today. Following up the announcement of his appointment he made known with a brief statement the policy he intends to pursue.

# STOP WAR.

His first act he says will be to cease hostilities against the rebels immediately. Then he will negotiate with general Li Yuan Hing, the revolutionist commander who recently proclaimed himself president of China with the view of reestablishing permanent peace.

# WANTS UNION.

Practically Yuan contemplates a union between the government and the rebels. Whether the rebels will accept his overtures however, is an open question.

# VIRTUAL RULER.

The emperor having surrendered practically all power by his edict of last Monday, Yuan's elevation to the premiership, if he succeeds in terminating the rebellion will make him virtual ruler of China, of course subject to the parliament, which the emperor is pledged to call. Other cabinet appointments await the new premier's selection.

# LANDS MARINES.

Shanghai, Nov. 1.—Rear Admiral Joseph Murdock of the United States navy arrived here today and at once ordered three hundred and fifty American marines to Hankow to protect foreign interests there. The marines departed immediately. Admiral Murdock arrived on the transport "Tahiti," which left Manila several days ago with a large force of marines.

# BUICK PEOPLE ACCEPT OVERLAND CHALLENGE

Their Action in Matching the Purse Makes Second Race Here a Certainty.

With the challenge of the Overland people accepted by the representatives of the Buick company and their purse matched the second contest proposed between the two cars which raced at the fair grounds on October 25th, is definitely assured. Nothing short of a heavy snow-storm or continuous bad weather will prevent its being pulled off. No date for the race has as yet been agreed upon but it will undoubtedly be held within a very short time.

William Pripp of the Hokenson Auto company of Madison, and a brother of Herman Pripp, winner of the last race, came down last night and put up the Buick's share of the purse. The Hokenson company will have complete charge of the Buick's interests in the coming contest.

From present appearances Grover Horn will not be able to drive the Overland car. He has not yet entirely recovered from the shaking-up he received in the last race. It is also probable that Herman Pripp may not drive the Buick car. This admission was made by Mr. Pripp to a Gazette reporter this afternoon.

## SOCIAL UNION HAS OPENING SESSION OF PRESENT YEAR

INTERESTING PROGRAM GIVEN AT THE Y. M. C. A. LAST EVENING.

## MANY NEW MEMBERS

Work of the Year Was Outlined And Leaders for Meetings Arranged.

About seventy-five members of the Social Union met in their first banquet and program of the season at the Y. M. C. A. auditorium last night. The new members of the club were introduced, both by their presence and their speeches, which were probably influential in bringing in the large number of new members who were welcomed at the opening meeting last evening. Judging from the attendance and the spirit with which the speakers entered into their topics the program for this year will be of the most interesting character and the club will sustain its reputation of having some of the best programs of the sort in the city.

An excellent supper was served at six-thirty which showed the ability of the committee in charge of the banquet to perform their duty. At the conclusion of the supper the chairman of the evening, S. C. Burnham, called the meeting to order and introduced the subject of discussion. Before the first speaker was called upon H. C. Buell, chairman of the program committee, submitted a number of topics for the next meeting which were voted on by the club. A subject concerning the labor and capital question was finally chosen, to be subdivided by the next leader. Following this nomination for the leader for the next meeting were called for and Dr. Holmapple was unanimously chosen. Upon the conclusion of the business the first speaker of the evening was called upon.

"Conditions of Unrest in the Social World" was taken up and discussed in many aspects by E. A. Taylor in a speech which was full of the usual supply of jokes at the expense of both those present and those who were not. Mr. Taylor opened his remarks with the story of a Canadian farmer who settled on a farm in the Saskatchewan valley after moving his family a great many miles, and at the end of fourteen months he still had the same two dollars with which he started. Without the social divisions, the mutual questions and other things conducive of a spirit of unrest, this man did not have to complain of the high cost of living or the cost of high living, and enjoyed a condition in which there was no social unrest.

There are many different kinds of unrest, a number of which are natural to a progressive people. The men or communities which are making the greatest strides toward the bettering of the other half, who are carrying on the most important movements in the history of social progress, are moved by a spirit of unrest.

Inability of working men to provide for their families, the raising of prices unnecessarily by the trusts, the overpowering tyranny of the transportation companies, and the high tariff on shoe leather are all important factors in causing a spirit of unrest in the social world. In this respect President Taft's principles are wrong, especially in the passage of the last tariff.

Prof. A. B. West's remarks on the "Spirit of Unrest in Its Relation to Crime" may be summarized as follows: All of the known crimes of today are probably the result of the spirit of unrest prevalent today, and a great deal of this lawlessness may be traced to the fact that men do not have enough lawful work to keep them busy and their restive inclination towards vice leads them to do it. One of the greatest causes of unrest is the evil of intemperance. Honest labor by times made unfit for honest labor by the drink habit and bent their energies in other directions which often lie in direct opposition to the law.

In his talk on the "Cause of Unrest in the Business World," Mr. Cobb brought out the fact that much of it is the result of continued interference by the government and individuals with the big business men and corporations. The railroads have to spend every cent on lawyers to defend them in the courts and thus do not rapidly improve their rolling stock roadbed. Unscrupulous agitators persuade business men from investing their money in beneficial enterprises and continually upbraid the men who are managing the big business affairs which make the United States one of the greatest countries in the world. Even the attorney general is unable to advise the corporations exactly what course of action will be lawful under the Sherman act and they are thus at a loss as to the method of procedure.

W. H. Dougherty next spoke on the subject, "Unrest in the Field of Politics." He said that a large majority of the political unrest in the country was the result of the agitation and misrepresentation of the politicians during their campaigns for office. The combinations of men for the purpose of doing a larger business are the natural outgrowth of commercial conditions and their methods are fundamentally the only ones possible when commercial transactions are of such size as they are in this country. The trouble lies in the fact that dishonest men have gotten into these corporations. The management of them should be placed in honest hands and their methods left as they are and as they should be. Laws permitting the recall of bad officials should not be made but the right officials should be placed in office in the first place. It is an imposition to expect people to vote intelligently on a large volume of laws and the referendum is thus a foolish policy. The very foundation of this government was laid by the supreme court and La Follette is not honest with himself when he attacks this body.

Rev. Laughlin's remarks on "The Religious Unrest of the Country" may be epitomized in the statement that the present generation has accepted a socialistic view of religion rather than the personal or individual view. The great number of different religions

growing up are causing us to look more at the question of doctrine or the method of worship than at the question of how we should live to be saved. Not until the conception of God and the great single truth of religion has been made universal will the religious unrest cease.

## VISITING HIBERNIANS AT INITIATION HERE

Delegation of Forty Will Be Present from Madison at Joint Ceremony Here This Evening.

Members of the Ancient Order of Hibernians of this city will be the hosts at a joint initiation ceremony of the Janesville and Madison Chapters at their hall this evening at which a large class of new members will be given the degree of the lodge. About fifty guests from out of the city are expected to participate in the event. Included in the delegation from the Madison Chapter are J. P. Callahan, State President, and J. P. Callahan, State President, of Milwaukee and Matthew Carpenter, head of the Milwaukee division, both of Milwaukee.

The Madison delegation will be escorted from the depot to the lodge rooms by the members of the local order and the initiation program will start at seven-thirty. Following the ceremony an elaborate banquet will be served and the speakers of the evening will give short addresses.

One feature of the entertainment which has been provided for the evening is a series of Irish dances and folk songs which will be given in costume by Mr. Thomas Ellis of Chicago who is a celebrated artist in his line.

## CHARGES VIOLATION OF CITY ORDINANCE

D. P. Crossman, Contractor, Arrested on Complaint of Street Commissioner—Pleads Not Guilty.

D. P. Crossman, the cement contractor, entered a plea of "not guilty" before Judge Fifield this morning to a charge of depositing dirt on South Washington street in violation of a city ordinance. Mr. Crossman was arrested on the complaint of Street Commissioner Dan Wilkins. The hearing in the case has been set for Saturday, November 4. The defendant will have for counsel, Attorney Cunningham, City Attorney Maxfield appearing for the municipality.

## BROKEN RAIL AT THE FIVE POINTS

Rail Becomes Broken in Some Manner And Trains Are Considerably Delayed This Morning.

A broken rail near the cabin at the Five Points early this morning, was likely discovered by passing trains, before any damage was done, although train No. 608, due here at 6:25 a. m., was considerably delayed on account of it. The rail broke farther down on the main line, a wreck would have undoubtedly been the result. The rail was removed and a new one installed immediately after the discovery and trains were soon able to pass. The shop car was delayed thirty-five minutes this morning as a result of the breakdown.

## LINK AND PIN.

Chicago & Northwestern.

Yesterday and last night witnessed one of the busiest twenty-four hours that has occurred for some time in the local yards. Increased freight traffic on the different divisions of the road caused the putting into service of about every available engine here and at points north. Last night there were thirty-three different engines over the line and this morning five extra were ordered out. The roundhouse was the fullest it has been for many months past. Traffic in the yards is extraordinarily heavy and all tracks are filled with incoming and outgoing cars.

Five extras today. Engineer Fry and Fireman Gersung took engine 1100 to Chicago; 419 going to the same place with Engineer Anderson and Fireman Egleston in charge; Engineer S. C. Smith and Fireman Bonder with 1622, ordered to Chicago; 557 with Engineer Monahan and Fireman Young to Fond du Lac, and Engineer Plouffe and Fireman Manning going to Fond du Lac with engine 881.

James Gardiner, who, with his wife, has been spending several weeks in Iowa and South Dakota, is back to work at the turn-table and reports having an excellent time.

Conductor McCarthy reported for work this morning after a lay-off of several days' duration.

All engines are now being equipped with the back and side curtains before leaving the shops as the winter season is fast approaching and the engineers and firemen have to be without some kind of protection those cold winter days and nights.

Engine 54, which has been in the shops, has been repaired and was turned over for work yesterday. Engine 213, after being overhauled, will be taken out some time tonight.

Prod Jackson and John Kelly, of the motive power department, resigned their positions yesterday.

Engine 191 was brought down from Fond du Lac this week to help in the yards as a switch-engine.

Engineer Dudley has returned to work and is on the Harrington, his regular run, again this morning.

Chicago, Milwaukee & St. Paul.

It is reported that a great many changes of time will be received by the different station men shortly.

Nearly all the trains coming from the north this morning were covered with a thick coating of snow, which indicates that there must have been a hard snowstorm up around Minneapolis and Portage.

## POULTRY MEN WILL HOLD BANNER SHOW EARLY IN JANUARY

Plans for the Coming Exhibit of Feathered Stock Being Made—Large Number of Entries.

Members of the Southern Wisconsin Poultry association are planning to hold another poultry show at the Rink on January 16 to 21 inclusive. Birds from all over this part of the country will be put on exhibition at that time as this will probably be the biggest one ever held by the association.

Since last year's show the poultry men have incorporated and the meeting of the board has planned for this year. Members of the board appoint their own committees and have entire charge of the show. This is not a money-making organization and is merely for the purpose of giving bird owners an opportunity to have their birds judged by a competent judge and to interest more people in the raising of poultry.

This year's show will be the biggest and most largely attended which has yet been held in the city and the plan will be made as valuable as possible to draw the better grades of fowls from outside of the state. Many of the local poultry owners do not know whether their birds are valuable or not and this show gives them an opportunity to have the most expert opinion on the subject. The first thing which the directors must do is to solicit funds for the premiums and other awards. This has always been done and the financing of the show has been accomplished by the kindness of the business men of the city. In short, the success of the entire enterprise depends upon the contributions of the people in Janesville. The usual entrance fee will be charged and silver cups will be offered the same as last year.

Mr. P. H. Green is at present doing everything possible to hasten the preparations and more definite plans will soon be made. Chas. V. Keeler of Minnauac, Ind., will be the chief judge, though the increase in size this year will necessitate the services of an assistant who as yet has not been chosen.

## HALLOWE'EN PRANKS WERE NOT SERIOUS

Little Damage Reported—Many Boys and Girls Out and Police Were Busy Until Midnight.

Halloween in Janesville this year was an exceedingly tame affair, compared with the tumultuous demonstrations that have taken place in former years. Hundreds of boys and girls were on the streets until a late hour and the police were busy patrolling the city and answering the calls of alarmed householders, but hardly any damage was done. Windows of houses on downtown streets and some private houses were daubed with scraps of soap, and the windows of the police station itself came in for their share. In some instances obscene words had been written on the windows.

The effective police patrol of the city no doubt restrained the merry-makers from taking undue liberties. Three Janesville citizens, Arthur Jones, Dr. R. W. Edden, and Harry O. Newlan, gave the use of their automobiles to the police gratis, and each of these was in charge of a special police officer. These officers reported for duty at seven o'clock and were busy until midnight.

North Milton avenue is reported as one of the places where the disturbances were most pronounced. A woman living there telephoned to station that a window in her house had been broken. The police responded and picked up three boys. They denied breaking any window but were kept at the station until about midnight and then dismissed. About twenty boys were in the crowd out of which they were taken.

Street Commissioner Dan Wilkins said this morning that a number of sidewalk gutter covers had been lifted, especially in the vicinity of Montgomery and Center avenue, but that much less mischief had been done in that respect than last year, when it took his men about a week to straighten up. The bridge railing on Center avenue was torn down, but was in such a dilapidated condition that it would soon need replacement.

Two burglars, one taken from the home of George Corry on Jefferson avenue, were found this morning at the corner of Main and Court streets. Chief of Police Appleby says that he has never seen so many girls out on Halloween as last evening, and they seemed to be having just as much fun as the boys.

## TEAR UP OLD TRACK BEYOND THE DEPOTS

Street Railway Will Soon Have Complete New Line From Milwaukee Avenue to the Cemetery.

Men and teams have been put to work tearing up the old rails of the street railway on Academy and Pleasant streets, beginning at the railway tracks, preparatory to replacing them with heavier steel. When the work is completed the company will have entirely rebuilt its line from Milwaukee street to the cemetery. The laying of the new track from Mineral Point avenue to the cemetery was finished about a week ago. From Milwaukee street to the Northwestern depot the track work has been practically finished. Brick for paving is on the ground and the concreting between the rails and ties will soon begin.

Tree Owns Land It Stands On.

In Athens, Ga., there is an old oak tree at least 200 years old, which bears the distinction of owning the land upon which it stands. This tree stands on land that formerly belonged to Col. William H. Jackson. He was so fond of the tree that when he died a deed was found that deeded the tree to itself.

## Endorse Tona Vita as Remarkable Tonic

Cleveland People Come Out For This New Remedy.

William G. Dea, who resides at 2109 West 83d street, is among well-known Clevelanders who have recently come out as endorsers of the remarkable new tonic, "Tona Vita," now being introduced for the first time here.

Mr. Dea said: "For the past eight months I have suffered with stomach trouble. My digestion was imperfect; gas would form on my stomach when I ate, and I was almost continually constipated.

"I was in a low state of nervousness and I never got a night's sleep. My mind became sluggish and my memory poor. I lost weight rapidly. I consulted physicians and was given several prescriptions, but with no success. I finally decided to try this new tonic, 'Tona Vita.' The result was almost instantaneous. I began to improve rapidly, and I now feel vigorous and healthy.

"I believe 'Tona Vita' is the best remedy ever sold here. I recommend it to my friends."

One of the physicians who are explaining the nature of the new preparation to the public, in the speaking of Mr. Dea's fully realized as yet what a wonderful medicine "Tona Vita" is. In Europe a similar preparation has been endorsed by some of the greatest persons, including the surgeon-general of the French army, but the medicine is new to the United States. However, before we leave this city the hundreds of half-sick men and women who are victims of nervous debility, and the general ill-health that this disease produces, will realize what a blessing the tonic is.

"Chief among the symptoms of nervous debility are lack of energy, stomach and bowel troubles, nervousness, depression of spirits, sleeplessness, little vitality, headaches, dull pain in the back, poor circulation, cold feet, dizzy spells, spots before the eyes and uneasy sleep. To any individual suffering from these symptoms 'Tona Vita' is a positive relief."

Smith Drug Co. has secured the agency for "Tona Vita" in Janesville, and the celebrated tonic is now on sale at their store.

## REVISED STATEMENT SHOWS A DECREASE IN LEVY ON COUNTY

Rock County's Contribution to State Treasury Lowered \$27,152.25 or \$1,728.67 Less Than Last Year.

According to the correction and modification of the state tax levy by which the levies assigned for the State Normal schools and the new state capital in the statement issued by Secretary of State Pratt, Oct. 23rd, are made, the remittance for Rock county will amount to the sum of these items as levied for the county, \$14,157.08 for normal schools, and \$12,995.17 for the capital, or \$27,152.25. This makes the state tax levy for Rock county, according to the revised statement, total \$116,168.24, which is a decrease of \$1,728.67 in the levy for the county in the year 1910. The statement indicating the exact apportionment was received by the county clerk this morning.

According to the first certificate issued Rock county was due to contribute \$142,310.49, or \$26,443.68 more than last year, to the state coffers, but the recent remittance which it was found could safely be paid, has decreased the amount to be paid by Rock county, in spite of the new item placed on the levy for state highway aid amounting to \$10,107.35.

The amount remitted for the entire state totals \$940,235, or nearly a million dollars. Of this amount \$400,235 was formerly set aside for the normal schools and \$450,000 for the state capitol building.

## State Monopolies in France.

State monopolies are more than ever in favor in France as a means of raising revenue to the prejudice of private enterprise. A committee of the chamber of deputies has been appointed, with a former minister of finance as chairman, to collect information on the possible working of monopolies of sugar and petroleum refining, the rectification of alcohol and insurance.

## A Nation of Innkeepers.

An English authority notes a sign of the return of good times to his country in the improved business of British hotels, which is reported to be very marked. This looks as if the tight little Isle were beginning to consider itself a summer resort instead of a great industrial country.

## Years of Suffering

Cataract and Blood Discharge—Doctors Failed to Cure.

Miss Mabel P. Dawkins, 121 Lafayette St., Port Wayne, Ind., writes: "For three years I was troubled with cataract and blood discharge. I tried several doctors and a dozen different remedies, but none of them did me any good. A friend told me of Hood's Sarsaparilla. I took two bottles of this medicine and was as well and strong as ever. I feel like a different person and recommend Hood's to any one suffering from cataract."

WILL PLAY BELOIT  
COLLEGE SECONDS

Janesville Football Team Will Clash  
in Preliminary Contest to  
Beloit-Ripon Game.

Saturday afternoon the Janesville high school football team will play the second eleven of Beloit college as a preliminary to the Beloit-Ripon grid-iron battle. Although the college aggregation is reported heavier on the average the local enthusiasts expect the team to make a very creditable showing against their challengers.

Coch McMurtry was in favor of playing the game with the heavier team with the idea of gaining valuable knowledge of the tactics employed, and to test their abilities in defensive play. The team has lost but one game this season and confidence is expressed at retrieving that blot.

## Java's Death Plant.

## Causes of insanity.

In England, where everything that is excessive in a great civilization is to be found, mental alienation is frequent. Many especial causes contribute to this, such as ill-assorted marriages, which engender hereditary insanity; hazardous and desperate speculations, the frequency of commercial crises, the increasing fluctuations of political life, the business peculiar to the rich, the abuse of fermented liquors, and, lastly, the immense number of religious sects.—London Hospital.

## Love and Friendship.

To feed love, there must be a difference of tastes and opinions; there must be little sufferings, forgiveness, tears, all that may excite susceptibility and awaken daily solicitude. Friendship is more happy, more peaceful; it is a refuge against all ills of life, it is a consolation for all sufferings.—Marie Capella.

## Signs of London Public Houses.

## His Real Meaning.

When a bad-tempered man grows emphatic in his remarks and says he does not care a "curse" he means, or should mean, to be correct, that he does not care a curse, the linguistic metaphors here being similar to that which makes "gooseberries" out of gorseberries.

## The Wise Cricket

very important to say. From far and near they came. They came in twos, in tens, in hundreds and in groups of thousands, and for miles around the green hills and fields were black with them.

And then they all became very quiet and the wise cricket began to speak. "My dear people," he began, "do you ever stop to think how very selfish you are—how you are living your whole life simply for your own good? You do not know what joy is and you never will know until you forget yourself for the sake of someone else."

The crickets listened, very much ashamed.

"You never knew that you could sing, did you?" he continued. "Well, you can, and I want you to all sing this little song after me." Then he sang very softly—"Go to sleep, little girl, go to sleep, little girl, go to sleep, little girl."

One evening just at twilight time the joy it gave them. Every summer night since that time excited, for the wise cricket had and they have sung that song to the little denly announced that he wanted every people of the land at bedtime, and that single member of the cricket family to why they are very much loved today of a twenty-five-cent piece. WEATHER BUREAU  
WILLIS L. MOORE, Chief.

## WEATHER CONDITIONS.

The atmospheric disturbance that was moving eastward over the lake region yesterday has passed off over the Atlantic coast. Rain and snow fell yesterday and last night on the northern plains, and along the eastern face of the Rockies. Rain has fallen generally throughout the east and southeast. The following heavy rainfalls are reported: Atlantic City, 1.42 inches; Jacksonville, 1.54 inches.

The most important feature of the weather map today is the great area of high atmospheric pressure advancing from the Northwest. The central pressure, 30.3 inches at Miles City, Mont., is the highest since last winter. This disturbance brings the first zero temperatures of the present winter. Minimum of 2 degrees and 4 degrees below zero were recorded at Williston, N. D., and Qu'Appelle, Sask., respectively.

In this vicinity the weather will be clear tonight and Thursday, with a drop of ten or fifteen degrees in temperature by morning, when a minimum of 15 or 18 degrees is to be expected.

**CHICAGO COMPANY TO OPERATE FACTORY IS RESULT OF BIG DEAL**

**AMERICAN CONSTRUCTION COMPANY OF CHICAGO SECURES LAND CONTRACT FOR CE-MENT POST PLANT.**

**PAPERS WERE SIGNED**

Will Employ in Neighborhood of a Hundred Men—May Be Part of Another Large Deal Now Contemplated.

On Monday afternoon papers were signed by John Rutow, president of the American Construction company of Chicago, and members of the firm owning the Cement Post company plant in this city whereby the factory and a hundred and fifty feet adjoining the factory on the south side of the building, was transferred on a land contract to the Chicago concern.

It is understood on good authority that the American Construction company will take immediate possession of the plant and will open it within a few weeks with a force of a hundred men. Just what will be manufactured from cement material is not known but it is intimated that the deal by the American Construction company is merely part of a big scheme of a Chicago land company and the opening wedge for other industries.

For some time past it has been rumored that a certain Chicago capitalist contemplated the construction of a large number of cement block houses in Janesville, modern and up-to-date, which would be sold on time to small property owners. Several of these gentlemen have visited Janesville and neighboring cities and it is thought that the purchase of the factory was the first step towards preparing for active work.

The Cement Post company buildings were erected several years ago or the manufacture of cement posts, later, through dropping off of trade in this article, the plant was shut down and was purchased by S. V. Tolstain, George Rubin and Al. Rotstein, and others, at a shabby sale. It was through these latter gentlemen the transfer was made on Monday last to the Chicago corporation.

**HISTORY CLASS WILL STUDY ABOUT GREECE**

Professor Wright of Beloit College Will Deliver a Series of Lectures Open to the Public.

The Twentieth Century History class is planning a course of illustrated lectures to be given in connection with their study of Greece for the coming winter. The lectures will be given in the lecture room at the high school by Prof. Lyman Wright of Beloit, who, besides being a most entertaining speaker, is especially well qualified to lecture on the subject of Greece by reason of his frequent trips to that country and his research work there.

The public are to be admitted to these lectures, the price for the course being \$1.50. Application for tickets may be made to Mrs. C. S. Jackson or to Mrs. George Mifflin. A course ticket can be secured at the door.

The date of the first lecture is Monday, November 6, at four o'clock.

**Trampled on by Thousands, But Practically Uninjured.**

The rugs placed on the sidewalk by the Big Store during the great Fall opening, were taken from our regular stock and placed there to demonstrate the quality we claim for our rugs. The rugs have since been cleaned (just swept and beaten). Yet after that gruelling test of taking the place of a sidewalk, after being walked upon by thousands of people, they are practically as good as new, and one can scarcely observe they have been used. These rugs are now on display in our second floor. Come and see them. They prove beyond a doubt the quality of our rugs, and the meaning of our motto, "We Keep the Quality Up."

Covers Will Be Laid For Two Hundred and Fifty at Banquet Tonight.—State Officers and Hundred Visitors Coming.

Arrangements are now completed for one of the most significant events in the year for the state organization of the Order of Eastern Star, which will be the banquet given in the Masonic hall this evening in honor of Mrs. Jennie J. Baker, recently elected Grand Worthy Matron of the order in this state.

Over a hundred visiting members of the lodge, including all the state officers, from all over Wisconsin and several officers of the national lodge, are expected to be present at the event tonight. Covers will be laid for two hundred and fifty guests and an elaborate menu will be served promptly at six o'clock. The program which will be given is as follows:

Introduction to Grand Officers.  
Address of welcome, A. E. Matheson or Wilbur Carle.  
Response, Grand Worthy Patron, Michael Barry.  
Vocal solo, Selected, E. O. Kimberly.  
Reading, Miss Anna Cutler.

**A CHICAGO WOMAN IS HELD BY THE POLICE**

Pending Investigation into Mysterious Deaths of Several of Her Relatives.

Mrs. Louise Vermylia, a Chicago woman, is being detained by the police in that city pending an investigation into the deaths of several of her relatives and friends who have died in mysterious manners in the past few years. Mrs. Vermylia is the widow of Charles Vermylia, who died in August of 1909 and formerly ran a train on the Northwestern road between Chicago and Janesville. His death is one of those that will be looked into as there is a suspicion of foul play. Mrs. Vermylia came into prominence a few days ago following the death of Florence Hissomette, who boarded at her home and to whom she was engaged.

In the issue of Printers' Ink for October 5th, the leading article is on the "Big Problem of the Space" written by John Irving Homer, and hinges entirely upon the statement made by George S. Parker of this city in answer to a similar question. Mr. Parker said "Small space in many media is better than large space in few media. The large space craze is merely a typical American craze created by clever magazine solicitors." In handling this subject the magazine has asked some of the largest advertisers in the country what they think of Mr. Parker's statement and for the most part they agree with him entirely.

Wanted—A young parrot, Mrs. Lulu Dixon, 458 N. Tonnice St.

Members of the National Fraternal League are requested to attend the regular meeting of the lodge, Thursday, Nov. 2. A full attendance is desired as there are important business matters to come before the order. A card party and box social will follow.

The Test of a Man.  
Giving evidence at an inquest at Yarmouth, a market stall carrier declared he could take ten pints of beer before breakfast and get home all right. The coroner told him he ought to be ashamed to say so and the witness replied that a man who could not take four or five pints was no man at all.—London Evening Standard.

## SOCIETY FUNCTIONS HELD LAST EVENING

LARGE NUMBER OF SOCIAL GATHERINGS MARKED OBSERVANCE OF HALLOWE'EEN.

### OBSERVE OLD CUSTOMS

Frolic and Hilarity With Festive Spread in American Method of Celebrating Old English Saints' Day.

While youngsters were taking care that Halloween be observed with the usual number of pranks which have come to mark a once sacred holiday, a large number of social events were observed in this city last evening by young and old alike. There was scarcely a household that did not in some way recognize the festival and many of the parties were of a very elaborate nature.

**Held Costume Party.**  
The eighth grade girls of the Adams school gathered at the home of Mr. C. E. Ward, 439 Caroline street, last night, and indulged in an old fashioned Halloween party. The evening was spent in playing various games, by the light of the Jack-o-lanterns, and after playing many games a candy-pull was indulged in which was much enjoyed by all the participants.

The home was beautifully decorated with lighted pumpkins and candles, and the walls and ceiling were decorated with autumn foliage. Dainty refreshments were served the guests, and one of the interesting things in connection with the refreshments was the cutting of a cake which contained a thimble, a ring and a penny. The cake was passed to the guests and Miss Jennie Buck found the penny, Miss Hazel Sennett, the thimble, and Miss Ardenna Zerbol was the lucky finder of the ring.

In one of the rooms a corner was arranged to represent a gypsy fortune teller and "Dance Fortune" foretold many funny forecasts regarding the future lives of the merry bunch of attendants. The party lasted until a late hour and the guests were very profuse in showing their appreciation of a very enjoyable Halloween.

The guests were dressed to represent some character and the following is the list of the participants and the characters they assumed:

Bono Ward—Indian.  
Grace Raymond—Cow-girl.  
Gertrude Murphy—Japanese Girl.  
Irma Robinson—Apple Girl.  
Naomi Kerstel—Pumpkin Girl.  
Jennie Buck—Farmer Boy.  
Lillian Broegge—Pumpkin Queen.  
Orpha Coon—Farmer Boy.  
Ardenna Zerbol—Witch.  
Della Ward—Farmer Boy.  
Hazel Sennett—Violet.  
Laura Broegge—Fortune Teller.  
Frances Dumphrey—Farmer Boy.  
Mary O'Hara—Witch.

**Halloween Party.**  
Miss Olga Zerbol was hostess at a Halloween party at her home, 427 North Hickory street, last evening. Music, cards and games were indulged in, after which a dainty three-course luncheon was served. Those present were: Arthur Francis, Ed. Hull, Carl Winter, Wilfred Francis, Ed. Dillon, and Fred Serene, and the Misses Nell Crocker, Loretha Ashley, Blanche Winters, Gertrude McGinley and Birdie Allen.

**Gave Progressive Supper.**  
Among the pleasant social events last evening was a progressive supper served in six courses at three of the homes of members of the party. Miss Marie Schmiedley entertained at the first two courses and Miss Elsie Koch and Miss Marie Nohr were the other hostesses. Various "stunts" appropriate to Halloween were duly observed and the evening proved to be a most delightful one for the twelve young people who enjoyed it.

**Entertained Thirty Guests.**  
Mr. and Mrs. Frank Dixon entertained thirty guests at their home on Highland avenue last evening at a delightful party in observance of Halloween. Games in keeping with the traditions of the evening were enjoyed by a number of the guests while card playing and music also furnished amusement. At the close of the evening a three course supper was served.

**Entertained For Miss Miller.**  
Mrs. L. C. Miller entertained a small company of young women at her home on North Point street last evening in honor of Miss Eva Miller, who with her parents, Mr. and Mrs. Lyman L. Miller, left today for their future home in Iowa. The evening was most pleasantly spent at music and other amusements.

**Fun at Moose Lodge.**  
Halloween night at the Moose Lodge was the occasion for a festival of fun last evening and was well attended by the members and their wives. The rooms were decorated in an attractive manner and appropriate games and contests and a social dance served to make the occasion a most pleasant one.

**Hostess to Society.**  
Mrs. D. H. Jones was hostess to the ladies of the home department of the Presbyterian church, yesterday afternoon at her home, 415 Madison street. Following the transaction of the usual amount of business a social hour was spent and delicious refreshments were served.

**Miss Westlake Hostess.**  
Miss Laura Westlake entertained a company of twelve young people at the apartments of Dr. and Mrs. R. W. Edden in the Cullen flats last evening. In honor of Mr. and Mrs. Charles Coleman of Oak Park, Ill., who have been her guests for several days.

**Entertained Diners Club.**  
Mrs. Roy McDonald entertained the members of the Diners club at a dinner party last evening. Following an elaborate repast a musical program was enjoyed for the remainder of the evening.

**How Birds Keep Warm.**  
The high temperature of birds enables them to resist cold effectively. Blood heat in a man is 98.4 Fahrenheit, while it is 107 degrees in the domestic fowl, and more in some other birds. In some cases they feel the cold cruelly, regardless of their temperatures. Many of the larger birds have the hottest temperatures, as a great deal of their flying is done in high altitudes.

## MUSIC LOVERS HAD RARE OPPORTUNITY TO ENJOY CONCERT

Madame Zeisler Delighted Audience at Myers Theatre Last Evening—A Notable Musical Event.

Through the efforts of Mr. Myers the people of Janesville were granted the privilege of hearing last evening not only the greatest woman pianist of America, but one conceded by the great critics on both sides of the water, to be one of the greatest in the world. The opera house was comfortably filled by an appreciative and enthusiastic audience.

Madame Zeisler began her program with three Beethoven numbers; the first, a simple minuet to which the two remaining formed an astounding contrast. These were enormously difficult and most players are entirely absorbed in the technical demands

they make upon the pianist, but in this case they were entirely subservient to the musical element and the clearly defined themes and sharp rhythms were cleverly brought out by Zeisler's splendid fingers backed up by her keen intelligence. Next came the intricate harmonies of Schumann—evidently Schumann the poet is the composer who makes the strongest appeal to Madame Zeisler and she plays his music with such rare delicacy and poetical charm that perhaps no other pianist claims to equal. At the close of the Schumann group Madame Zeisler was presented with a

bouquet of beautiful roses from the "Schumann Club." Chopin was represented by the great sonata in B flat—the one containing the well known funeral march. This march was taken at a somewhat slower tempo than that employed by conductors of military bands who so delight in this number. In the second part Madame Zeisler demonstrated what can be done in the way of a "singsong" tone on the Steinway grand, and what it can mean in point of beauty.

In truth to the music lover, the entire program was a series of beautiful pictures such as only the great artist is able to produce. The familiar "Hark, Hark, the Lark," was tossed off as a delightful trifle and the "Erlking" was played at a furious tempo that fairly brought the audience to its feet. The program closed with three Liszt numbers, Dreams of Love, Venice, and Barcarolle and Barcarolle, all of which fully verified everything that had gone before in proclaiming Mrs. Zeisler a wonderful and gifted artist. The audience was most enthusiastic throughout the evening and refused to leave, recalling Mrs. Zeisler several

times. She graciously responded by a Scholzer Etude, magnificently played.

**Her Diagnosis.**  
Small Floasie heard a mule braying for the first time. "Oh, grandpa," she exclaimed, "that horse has the whooping cough!"

**Few Really Happy Moments Dought.**  
In looking back over our lives at the moments that have been worth while, how many of them did money buy? From Success Magazine.

**Earth's Core, Iron or Steel?**  
At a meeting of the Helmsiological association at The Hague, Professor Welchert asserted that his studies of the varying velocity of earthquake tremors, passing through the interior of the globe, lead to the conclusion that the earth consists of a central core of iron or steel, about 5,500 miles in diameter, surrounded with a stony shell 530 miles in thickness. Between the outer solid rind and the inner layer of rock covering the metallic core, he thinks there is a layer of liquid, or plastic material, lying a little less than twenty miles below the surface of the earth.

**Woman's Foot Growing Bigger.**  
The manufacturers claim that the American woman's foot is growing larger. The number two shoe is almost obsolete, they say, and sizes four and five are much commoner than three. The explanation seems to be that the phenomenon is due to the increased use of the feminine foot as a means of locomotion. The constantly increasing number of women engaged in industry and the growth in popularity of tennis, golf and walking have done much to abolish the wearing of pinching shoes. The tradition that small feet are an excellent thing in women has persisted long and will not die without a struggle. Conservatives need not fear that women will carry this matter too far; they know when to stop.—Success Magazine.

**Early American Coins.**  
In 1681 a party of emigrants from Dublin, Ireland, came to New Jersey, says a writer in the Numbismatist. Among them was one Mark Newble, who brought with him a quantity of coins struck in Ireland. These were called Mark Newbles or St. Patrick half pence, from the design on the reverse, which represented the saint in the net of banishing the snakes. Such was the scarcity of money, especially small change, that the authorities of New Jersey permitted their passage, provided "No one shall be compelled to take more than five shillings in one payment." The coinage was struck in various metals, silver, brass and very rarely in lead. The designs are crude but quaint.

**NO BETTER WAY TO  
BREAK A BAD COLD.**

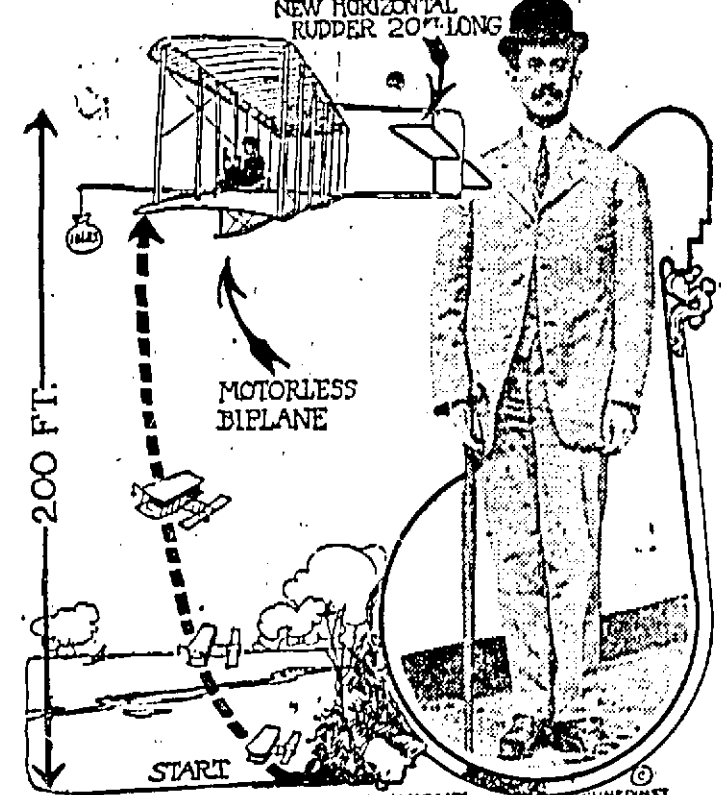

Surely cures the most severe cold and ends grip misery in just a few hours.

The most effective and harmless way to cure the Grippe or break a severe cold, either in the head, chest, back, stomach or limbs, is a dose of Pope's Cold Compound every two hours until three consecutive doses are taken.

You will distinctly feel the cold breaking and all grippe symptoms going after the very first dose. It promptly relieves the most miserable headache, pain, headache, dullness, head and nose stuffed up, feverishness, sneezing, sore throat, running of the nose, soreness, stiffness and rheumatic aching.

Take this harmless Compound as directed, with the knowledge that there is no other medicine made anywhere else in the world, which will cure your cold or end Grippe misery so promptly and without any other assistance or bad after-effects as a 25 cent package of Pope's Cold Compound, which any druggist in the world can supply.

After three years' research we have conclusively demonstrated that quinine is not effective in the treatment of colds or grippe.

ORVILLE WRIGHT  
ASTONISHES THE WORLD WITH MOTORLESS AIRSHIP.

Diagram of Wright glider and picture of the famous inventor. Orville Wright, of Dayton, Ohio, has just completed the first few days of his experiments with the possibilities of imitating the sea gull in a man made heavier than air machine. For years it has been the contention of scientists that there would eventually be evolved a gliding machine which could remain in the air in a still wind hours motorless or soar to and from with the air currents without

the necessity of a motor. The truth of this has been demonstrated to the entire satisfaction of the Wright brothers. Orville Wright on October 21st succeeded in flying from the ground to a height of 200 feet remaining in a stable position over a minute, dropping almost to the ground and soaring again to a comparatively high altitude, and in fact accomplishing marvels with his glider.

The success of these experiments are epoch making and of international interest.

**Signing With a Cross.**  
Persons who cannot write their names are required to use as a substitute the sign of the cross (X). Anciently kings and nobles used the same sign, but not ignorantly. It was used by those who could write as well as by those who could not as a symbol that the person making it pledged himself by his Christian faith to the truth of the matter to which he affixed the cross. Hence, although people now write or subscribe their names, they are still said to sign.

**Plucky Hobin.**  
In Ladybank Auction Mart, an energetic auctioneer had knocked a hole in the postum with his hammer. Inside this hole and behind the boarding a robin has built its nest, where it is now sitting on four eggs.—The Scotsman.

**America's Gateway.**  
Ellis Island, in New York bay, is the great gateway for aliens coming to America, and an average of 2,414 of them pass through it every day in the year.

**Where He Was Gray.**  
A young man of 83 summers, whose hair is still brown, met the other day a friend much younger, but whose hair is quite white. "What is the reason," said the latter, "that you do not grow gray?" "Oh," replied the first, "that is easily explained. I have the gray matter on my brain, inside!"

**Sign of It.**  
"What makes you think he recently married?"  
"He just got off a trite remark that women are peculiar."—Detroit Free Press.

**Town of Locomotives.**  
On September 5 bids were opened in Washington for the French "scrap" that so picturesquely and tragically straws the route of the Panama canal. It includes abandoned locomotives, dump cars, tanks, barges, dredges, boilers, girders, sheet iron, parts of old machinery and miscellaneous junk—the relics of DeLessep's greatest and most disastrous undertaking. Every one who has visited the isthmus has brought away vivid recollections of these gaunt monuments, as well as of the incredible tales with which they have come to be embroidered. It used to be related that the French settlement of Christophe, adjoining Colon, was built on a foundation of locomotives dumped by the shipload into the virgin swamp. The material is to be removed by the contractor at his own expense, the Panama railroad charging \$2.25 a ton for its transportation to the seaports. Three years will be allowed for its removal.

**Rainmarks.**  
Rainmarks upon clothes may be removed by placing a clean damp cloth upon the material and pressing with a moderately warm iron.

**PIMPY? WELL, DON'T BE**  
People Notice It. Drive Them Off With Olive Tablets.

A pimply face will not embarrass you much longer if you get a package of Dr. Edwards' Olive Tablets. The pimples will vanish after you have taken the tablets a few nights. Nothing ever cleansed the blood, the bowels and the liver like Olive Tablets.

Olive Tablets are the only successful substitute for calomel; there's never any sickness or pain after taking them. Olive Tablets do all that calomel does and just as effectively, but their action is gentle and safe instead of severe and irritating.

No one who takes Olive Tablets is ever cured with "a dark brown taste," a bad breath, a dull, listless, "no good" feeling, constipation, torpid liver, bad disposition or pimply face.

Olive Tablets are made of pure vegetable compounds mixed with olive oil.

Dr. Edwards spent years among patients afflicted with liver and bowel complaints, and Olive Tablets are the immensely effective result.

Try them. Take one nightly for a week. Then look at yourself in the glass and see how you feel. "Every little Olive Tablet has a movement all its own."

At all druggists in neat pocket packages at 10c and 25c.

Made by the Olive Tablet Company of Portsmouth, Ohio, or Columbus, Ohio. Dr. F. M. Edwards, President.

## REHBERG'S

If you haven't settled your overcoat question, you'd better; if you haven't seen our big stock of them, you'd better. This is a wonderful collection of overcoats we have here; new things all through it, new colorings and patterns, new models. Late things brought out. A half year's preparation lies back of this great overcoat gathering. It's now ready for your admiration.

You don't realize until you see them how much we are indebted for these rich fabrics to the foreign weaves. Each excels in some special line; and we get the best from each. English, Scotch and Irish weaves have their own distinctive excellences. Germany, Austria and France produce better goods than anybody else in certain fields. America is second to none in some things. We pick and choose, and gather from here and there just the things we want; we believe they're just the things you want.

We have overcoats here  
from \$10 to \$30.

Magnificent values at  
\$12.50 and \$15.

## INDUSTRY AND MECHANICS

INVENTS A FOLDING ANCHOR  
Arms of Implement Close Up Along Shaft When Not in Use—Handy in Small Motor Boats.

A Wisconsin man, who probably had the painful experience some other people have had with large anchors in small motor boats, has designed a folding anchor. The arms of this implement are pivoted at the bottom of the shank, which is hollow, and are operated by a rod that runs up inside the

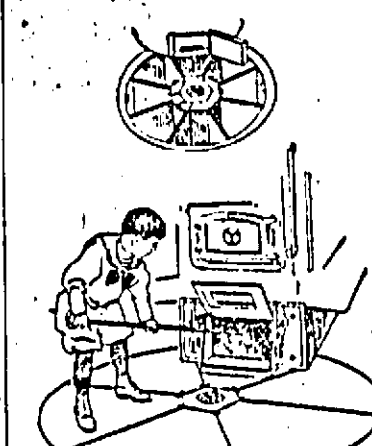

shank. When the anchor is not in use the arms can be folded up along the shank and the whole take up very little space, besides having the points out of the way, where no one is in danger of running against them. When the anchor is to be lowered the arms are pushed open and locked in that position so firmly that the apparatus is just as strong as if made in one piece. An anchor of this kind can be laid along the bottom of the boat or stowed away under a seat and no body will know it is aboard until it is needed.

## ASH HEAP UNDER THE FLOOR

Revolving System of Boxes Arranged in Front of Heater to Receive Debris—Emptied Any Time.

The Hidden Ash Heap.

day to day, is a source of some concern to the tidy householder. Then again the transference of the ashes from under the heater must be looked after constantly and is a task which many a man performs only with the assistance of considerable profanity. The matter has been solved by burying the ashes as they fall from the heater. A revolving system of ash-boxes fits in a well in front of the heater and when the heater is raked the debris therefrom is drawn directly into one of these buried receptacles. These may be emptied at one's own convenience.

MASSACHUSETTS ELECTION TO FORECAST NATIONAL CONTEST.

Boston, Mass.—The approaching gubernatorial election in Massachusetts is being watched with interest from every section of the country. As it is generally thought that a landslide either democratic or republican, will give an accurate idea of public sentiment generally.  
Governor Eugene N. Foss is the democratic nominee and opposite to him is the present lieutenant governor, Louis A. Frothingham. National issues have been injected into the campaign on both sides. The republicans under the leadership of Sen-

ator Lodge are defending the Taft administration as progressive. The democrats are combatting the Taft tariff votes and whichever way the tide turns on election day, the victorious party will make the most of it for moral effect in the country, preliminary to the struggle for the presidency.

This is one of the six gubernatorial fights on for this November. The other states are Kentucky, Maryland, Mississippi, Rhode Island, and Virginia. The red hot municipal campaigns in Philadelphia and New York are attracting unusual attention.

FOREIGNERS IN CHINA IN DANGER.

Peking, China.—The revolutionary spirit manifesting itself in the North as well as the South has brought about a grave crisis in the foreign quarter of the capital. Cautious measures were taken in Manchuria where the government does not permit mention of the revolution, and shows the anti-government spirit in the far North. The diplomatic corps has discussed the necessity of maintaining communication between Tien Tsin and Peking. The foreign military commanders report only sufficient troops to protect the legation quarter in Peking and the foreign settlement in Tien Tsin which number approximately 1,000 and 2,200 respectively. Consequently in a serious emergency only Japanese would be immediately available from the garrisons at Port Arthur and Dairen. An English paper in Shanghai has suggested that the Manchus, when desperate, might endeavor secretly to encourage the ignorant multitude to attack foreigners and thereby attract foreign intervention. The Manchus, however, are apparently following a weak and vacillating policy. While no immediate trouble is anticipated, there is grave fear of hardship for Americans and other foreigners should the revolution be carried to the doors of Peking.

## Inner-Player Piano

You need not go to Concerts or Operas or Musical Comedies to be entertained. You can have the very best music of every kind at home and

## YOU CAN PLAY IT YOURSELF

Could there be any better way to make cheery the long winter evenings at home and provide for the entertainment of your family and your friends than to have one of these celebrated Inner-Player Pianos?

## Why Not An Inner-Player For Christmas?

### What An Inner-Player Will Mean In Your Home

IT WILL MEAN that you can have music—the best of music—whenever you want it.

- It will mean that you will always have an ever-ready means of entertaining friends.
- It will mean a constantly growing familiarity with an abundance of beautiful music which you may not at present even realize is in existence.
- It will mean an important educational factor for the children—a method of making them familiar with the world's greatest composers, thus supplying a deficiency in the educational system of most schools.
- It will mean that you can familiarize yourself with the new grand operas that are to be sung in the metropolitan cities this winter, in advance of their production; or it will keep you in touch with the successes of comic opera stage.
- And above all it will mean that instead of just listening to music you can play it. No one can tell you the tremendous fascination of producing music. You must experience it yourself. And when you do, you will realize that for the first time in your life you are learning what real musical enjoyment is.

## Your Piano the Same As Cash On An Inner-Player Piano

Don't think because you already have a good piano that you cannot have an Inner-Player.

No matter what kind of a Piano you have now you can apply it the same as cash on an Inner-Player and pay the balance in Small Monthly Installments, if you prefer.

## HEART AND HOME TALKS

BY BARBARA ROYD

### The Housewife and the Woman.

THE time may come when man will appreciate the woman more than the housekeeper. But it would seem as if that time is not yet. When housekeeper or woman is weighed in the balance, if either is to be wanting, judging by observation, the man would rather be the woman slip and keep tight hold on the good housekeeper. For no matter how great the man may be, what vast projects he may put through, how clearly love of humanity may burn within him, his spirit becomes drowsy and life flat, stale and unprofitable, if his house is all at sixes and sevens, and his meals nondescript affairs served whenever it suits the fancy of the lady of the house. He may soar to wonderful heights of oratory on the public platform, but at home he cannot rise above an overdone beefsteak or holes in his socks.

There is the man who doesn't exhibit this characteristic. A leader of men, a man famous in this country and Europe, whose wife had recently died, and whose home was presided over by a niece, said most dejectedly to a friend, in reference to the niece, "She isn't a good housekeeper." There was a world of woe in his tone. Life to him was a blank. The ordinary business man when he comes home to an untidy and supperless house, is apt to rave, and to express in no measured terms what he thinks of such a state of affairs. And when the same condition confronts the day laborer on his return from work, it has been known to lead to murder.

So the woman who wants to be a success as a wife had better place as her foundation stone, good housekeeping. She needn't parade it, if she doesn't want to; but it should be there as a fundamental part of her equipment. She can be a true woman, with all the womanly charm, the coquetry, the love of pretty things and bonbons and such trifles that are supposed to go with the feminine make-up. But these are not enough in themselves to thoroughly satisfy the ordinary man's nature. She can give him all those, but if she doesn't give him a well managed home in the bargain, he is going to be a dissatisfied and unhappy creature.

The day may come when we will all live in apartments, or communally, or in some fashion, that the housework will be done by experts, or machinery, and man can then enjoy in woman, a mental and spiritual comrade. But that time is not yet. Today, he wants a comrade. But he also wants a housekeeper. And with nine men out of ten, it were better for a woman, if she values the happiness of her home, to fail as a comrade than as a housekeeper.

## The Evening Chit-Chat

BY RUTH CAMERON

"SHE was married by momentum."

I wonder of how many married women that might be said. A pathetic little letter lies on my desk. It is from a young girl who has discovered that she does not love the man she is engaged to marry in less than two months.

"But what can I do?" she cries. "I have almost all my trousseau and most of my household things. My girl friends have given me showers, and we've even picked out the house and hired it, and we're beginning to talk about setting the actual date for the wedding. I've been afraid for two or three months that I didn't care enough, but that was what made me realize just how badly I did feel. Why, when we talked about actually being married on this day or that it just seemed as if everything went black. I felt as if I were being sentenced to prison. Isn't that a perfectly awful way for a bride to feel?"

"But what can I do? How can I break it off? What will people say? What will he say? Oh, Miss Cameron, sometimes when I wake up in the night and think it all over, I feel as if I were going crazy, or as if it must be all a terrible dream. But I can't possibly turn back. Can I?"

I wonder what the other women who have been in that same position and have gone on would say to "I can't possibly turn back. Can I?"

I am afraid they would laugh if they heard it— that terrible bitter melancholy laugh—like the laugh of the girl that Dick painted in "The Light that Failed."

which is the saddest sound in the world.

"You think it takes more strength than you've got to stop now," they would say. "Now how much strength do you think it's going to take to go on and live forty or fifty or sixty years with a man you don't love?"

One mistake never corrects another.

The Bramble bush philosophy of our nursery rhyme doesn't work in real life.

This girl has made one terrible mistake in getting engaged to a man she doesn't love. She certainly can't correct it by making the even more terrible blunder of marrying him.

Listen, my dear girl—and any others who may be in a similar position—first, don't be swayed by any passing mood of resentment or overwrought nerves in this matter. Be sure you know your own mind this time. Give your feelings a reasonable test of time. But once you are sure, don't let any considerations of what people will say or what he will say, have a feather's weight with you. Think how much worse things they probably say at the divorce suit.

Go ahead and do what you know is right and best, and you will find strength for all the recriminations and embarrassments and misery of broken habits that can possibly come.

Go straight ahead and if discouraged moments come hold tight to your heart the comfort that six months of misery is better than sixty years.

You feel as if you were in a terrible dream. You are. And you can awaken yourself now if you will make the effort. But marriage would convert your dream into a reality from which you could never awake.

May you have the strength to do what God means you to and find the best happiness that He has in store for you.

### UP-TO-DATE HOUSEKEEPING.

What a Resourceful Cook Can Make From a Bunch of Celery.

By Alice E. Whitaker.

Every bit of a bunch of celery is useful from the root to the leaves, yet many a paragon can could disclose how reckless cooks are throwing away all but the inner tender stalks. The root can be used for salad and for flavoring soups. The outside stalks and the roots also make the foundation for cream of celery which is a most appetizing thick soup.

More celery flavor comes from these coarse portions than from the tender crisp stalks, which are eaten plain, with a seasoning of salt, or mixed in a variety of salads. The light colored, smallest leaves are used as a garnish for chicken, celery, nut or egg salads. When buying celery avoid that which appears coarse and with many green leaves, for it has not been properly blanched and is fit for cooking only.

To make celery crisp let it stand an hour in ice cold water to which a tablespoon of lemon juice is added, for this tends to harden it. Celery should not be chopped for salad; cut it in thin slices, crosswise with a sharp knife.

Chopped celery is useful as a garnish. Use the large white stalks, and cut in four-inch lengths. Slice each end half an inch deep, which leaves an inch uncut in the center. Drop into acidulated water and let stand until the ends curl over to meet the center. Lay the celery curls round a salad like a wreath.

As a relish cut some of the finest white stalks into four-inch strips and fill with grated cheese, seasoned slightly with paprika. Arrange in ice cube fashion on a plate and set a bunch of the small leaves in the center.

Another combination of cheese and celery is in the form of an escallop. Prepare the stalks and cut in inch pieces; cook until tender in salted boiling water. Drain, put a layer in a baking dish, cover with white sauce and sprinkle with a little grated cheese. Make more layers and cover the top one with buttered crumbs; set in the oven to heat through and brown the crumbs.

The combination of cheese and celery is always good and sometimes creamed celery is served in a pineapple cheese shell and requires a fine flavor.

A good salad may be made of celery roots. Wash, scrape and cut out any black spots; then cook in slightly salted water until tender. Cool, cut in small cubes and add a little grated onion or onion juice. Serve with an oil dressing, but do not mix it separately. Pour the oil over the salad, scatter on the seasonings and mix, sprinkle with vinegar and mix again. Serve on lettuce leaves.

Celery sandwiches must be made with a dainty hand. Use none but the crisp inner stalks and chop, not grind.

fine. Scatter one-quarter as much ground nut meats over and mix smooth enough to spread with mayonnaise. Spread between thin slices of white bread.

For celery and nut salad first drop English walnut meats into boiling water and let stand until the thin brown skins will slip off. Drain, skin and break into small pieces. Cut crisp stalks of celery into thin slices crosswise. Mix two-thirds celery with one-third nut meats. Put a large spoonful on two or three cup-shaped lettuce leaves and pour an oil dressing over seasoned lightly with onion juice, but not enough to be really detected as an onion flavor.

To serve as a vegetable scrape stalks of celery and cut them in inch lengths. Cook in salted water until tender, drain and pour a sauce over it, made from one cup of milk, two level tablespoons of butter, salt and pepper, and, if liked, onion juice.

For cream of celery use three cups of celery leaves and coarse outside stalks, cut and packed closely in the cup. Add three slices of onion and simmer until the celery is very soft in water to cover. Make a thin sauce of three level tablespoons of flour and butter, one pint of hot milk and season it with salt and pepper. Add the sifted celery, pressed through a potato strainer, and heated again. If too thick, add hot milk and to make richer add the yolk of an egg beaten with two tablespoons of cream and beat through.

### INDISCRIMINATE MIXING WITH MEAT.

"The man who is informed on the actual cause of human suffering," says Dr. J. H. Tilden, who has made diet a prominent therapeutic agent in his practice for many years, "knows that man can eat great quantities of meat without much harm, if the meat is from healthy animals, but when he puts oatmeal with it, or cakes and syrup, he is inviting digestive troubles."

He mentions, in illustration, the case of Mr. M. of Wichita, Kan., who for many years lived on the plains on buffalo and elk meat and coffee, and who at seventy is unusually healthy. I advise against the use of meat, as a rule, but I have frequently suggested that the chief objection is to mixing it indiscriminately with other foods. Meat and milk, meat and fruit, meat and green vegetables are especially bad combinations. Meat and whole cereal bread is the least objectionable combination for meat.

## CURIOUS BITS OF HISTORY

THE FIRST ENGLISH AGITATOR.

By A. W. MACY.

King Richard I. of England was much more concerned about crusading in the Holy Land than he was about governing his people. His right-hand man, Archbishop Walter, was far more interested in raising money for Richard than he was in the spiritual needs of his flock. By various obnoxious measures he collected immense sums. Government offices, earldoms and bishoprics were sold to the highest bidders. Judges bought their seats and cities bought their charters. Tenants of crown lands were forced to pay double prices for their holdings. The poor were taxed to the limit, and, as one writer said, "England was reduced to poverty from one sea to the other." But a champion of the people arose in the person of William Fitzosbert. He did not belong to the laboring classes, but he had the nerve to stand up for their rights. The king's clerics hated him because he declared the king was being defrauded by financial corruption. The laboring people flocked to him in great numbers, and for a time he was too strong for the archbishop. But some of his followers became frigid at the post: he results of his bold speeches and deserted him. Being pursued by the authorities he took refuge in a church tower. By order of the archbishop it was set on fire. Fitzosbert surrendered, and was condemned to die. He was stripped naked, tied to the tail of a horse and dragged over the rough stones of the streets of London. He was dead before Tyburn was reached, but the poor broken body was hanged in chains. Thus perished the first English agitator.

### British Modesty.

A very loyal lady of British birth asked an American dame in England whether they had any painters in America. "Oh, yes," said the American, "you have some of them here—Sargent and Abbey and Mrs. Merritt and McClure Hamilton." "Dear me," said the English lady, "you'll be excluding Whistler next!"

## The KITCHEN CABINET

WHAT is the use of weeping if the sun does take a rest? It's bound to go on shining when the good Lord thinks it's best.

—Florence M. Day.

### OVEN HINTS.

It is always better in baking flour mixtures to have a moderate heat at first, until the cake or biscuit is fully risen, then increase the heat so that it will brown over quickly. If too extreme heat is used at first the dough is stiffened before it has an opportunity to rise; the result is a cracked and unattractive surface.

Biscuits and pastries are baked in a very hot oven, as the cut surfaces allow the gases to escape readily. Pastry, unless baked quickly, will be soggy.

Have a strong under heat for baking pastry.

Small ovens cool quickly and should be heated hotter than large ones. Do not cool the oven by keeping the door open too much.

The length of time for roasting or baking fish depends upon the extent of the surface exposed to the heat more than on the number of pounds. For example, a thin large roast, because of its large surface exposed would take less time to roast than a roll roast of the same number of pounds.

A steak an inch thick requires six to ten minutes for broiling; an inch and a half, eight to fifteen minutes.

Lamb should never be served rare; mutton may.

In baking angel food a very slow oven is maintained throughout the first half of the baking, then a little increase and finish with heat enough to brown the cake a rich brown.

A layer cake needs a hot oven and should bake in twelve to twenty minutes. Molasses and fruit cakes should have slower ovens. An ordinary ginger bread will bake in a good oven in forty-five minutes.

The small ovens used on the top of gas stoves are a great convenience and economy.

Nellie Maxwell.

### A Motive Indorsed.

"I don't blame that cook of ours for wanting more salary," remarked Mr. Growcher.

"But you always are complaining of the food she prepares."

"Certainly. She undoubtedly wants a larger income so that she can afford to eat at a restaurant."

### Difficulties of the Historian.

To obtain history which is literature and history which is accurate depends upon human qualities not often found in the same person. He who has the art of getting at the facts—and it really is quite an art, and difficult enough to master—somehow does not have the art of building his "facts" into a literary structure that pleases, perhaps fascinates, a multitude of readers.—L. A. Chase, Fellow in American History, Michigan, in Outlook.

### Wink Your Cut Glass Sprinkle

Soap leaves a greasy film on glass which is hard to remove; the following method of washing will, however, make glass crystal clear:

Take a wooden tub, or pad the metal sink with soiled glass linen towels or any soft piece of cotton. Wash the glass in warm suds, made by dissolving a teaspoonful of Gold Dust washing powder in a pan of hot water; use a soft brush to clean surface, then rinse in water of the same temperature. After the glass has been carefully dried on glass linen, use a camel's hair brush to polish the cut surface.

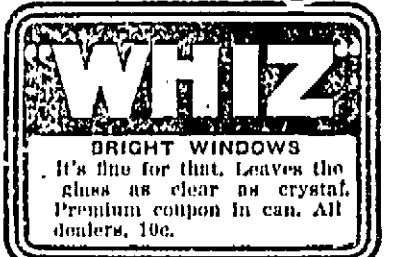

### NO CAUSE TO DOUBT

A Statement of Facts Backed by a Strong Guarantee.

We guarantee immediate and positive relief to all sufferers from constipation. In every case where our remedy fails to do this we will return the money paid us for it. That's a frank statement of facts, and we want you to substantiate them at our risk.

Rexall Orderlies are eaten just like candy, are particularly prompt and agreeable in action, may be taken at any time, day or night, do not cause diarrhea, nausea, griping, excessive looseness, or other undesirable effects. They have a very mild but positive action upon the organs with which they come in contact, apparently acting as a regulative tonic upon the relaxed muscular coat of the bowel, thus overcoming weakness, and adding to restore the bowels to more vigorous and healthy activity.

Rexall Orderlies are unsurpassable and ideal for the use of children, old folks and delicate persons. We cannot too highly recommend them to all sufferers from any form of constipation and its attendant evils. That's why we back our faith in them with one promise of money back if they do not give entire satisfaction. Three sizes: 12 tablets in each, 25 tablets, 50 cents and 50 tablets for cents. ## THE USE OF COAL AS COMPARED WITH OIL

Variety of Opinion Among Railroad Men Here and Elsewhere the Cause of Many Interesting Discussions.

Ever since the oil-burning locomotive came into existence there has been a great many differences of opinion among employees of the road and the public in general as to whether the coal burner or the oil-burner was the most satisfactory.

The following, which is extracted from one of the most popular engineering publications, will help materially in the solving of this interesting and absorbing subject, pro and con:

"As may be expected, there is a variety of opinion among railway men regarding the comparative cost of coal and oil burning locomotives, but all must agree that better results constitute the most important item in the running work. Looking tubes continue in a more marked degree to be the chief cause of engine failures.

"With the oil burners the fires do not last as long as with coal burners, owing to the intense heat being more rapidly developed. The turning off, and on of the fuel supply when stopping and starting, with the constant variations in temperature in the fire-box, also accelerates the tendency to induce a constantly increasing leakage in the firebox end of the tubes.

"Tubes with welded steel ends are in some cases replacing the older methods, thereby obviating the use of copper ferrules, which are more readily affected by rapid changes in temperature. Smaller holes in the fire-sheet are also being experimented with, thereby extending the area of the heating surface and lessening the liability to small fractures.

"There also seems to be a continuation of differences of opinion as to the methods of working a locomotive to obtain the best results with oil fuel. Should the throttle-lever be partially opened with a longer valve travel? This question is not new; the conviction being that the high rates of speed and running lightly, the lever should be 'hooked up,' giving the valve as short a stroke as will admit sufficient steam to maintain the high velocity.

"The reports from many engineers in charge of oil-burners is that engines running with throated valves partially open and a fuller opening of slide-valves use less fuel, about half wear on the motion, and show less condensation by carrying particles of water into the steam chests."

## SACRED CONCERT IS ARRANGED BY CHOIR

Fulton Congregational Church Choir Will Give Fine Song Service Next Sunday Evening.

(Special to this Gazette.)

Fulton, Oct. 31.—The choir of the Fulton Congregational church has arranged for an especially fine sacred service to be given next Sunday evening, Nov. 5th. The selection which has been prepared is "The Man Who Set the World A-Singing," arranged by Mr. Sankey who was a co-worker with Mr. Moody in evangelical work. Many of the songs which moved thousands of hearts will be a part of the program.

The series of sermons that have been preached by Rev. A. G. Coggeson on biblical types of modern men, at the morning service, will be continued until December 17, and the subjects that will be taken up during the month of November will be as follows:

Nov. 5th: "The Man Who Makes Mistakes—Nothing Else."

Nov. 12th: "The Man Who Cannot See Far Enough."

Nov. 19th: "The Man Who Disappears His Future."

Nov. 26th: "The Man Who Just Comes Short."

The subjects will be dealt with at the morning service. You are heartily welcome.

**FIRE IN SUMMER KITCHEN WAS FINALLY EXTINGUISHED.**

Strenuous Efforts to Prevent Serious Fire at Home of Frank Youngs in Town of Porter.

(Special to this Gazette.)

Porter, Oct. 31.—Frank Youngs had a very narrow escape from losing his home on night last week. The summer kitchen took fire between nine and ten o'clock in the evening, presumably from a pipe that had been left burning in a coal pocket, and was nearly consumed when discovered. No wind was blowing and a bucket brigade luckily saved the house.

John Sweeney has a mission at work putting a cement floor in his barn.

Mrs. Judd McCarthy accompanied her father, Edward Ford, to Rochester.

Minn., last week, where the latter went for treatment.

## BOY SCOUTS LOOKING FOR A NEW LEADER

Janesville Scouts are in Need of Leader, An Addition to Their Funds, And a Hall for Drill.

Owing to the fact that Mr. Reeder is leaving for Milwaukee to see the Janesville Scouts are looking for a new leader to fill his place. Every effort has been made to secure some capable business man who will volunteer the time and effort which the position requires. The local company of Scouts owes much of its present condition to the untiring efforts of Mr. Reeder and the boys will miss his leadership during the winter.

Considerable difficulty is being encountered in the endeavor to secure funds enough to pay the running expenses as the Scouts ran behind on the entertainment which the "Money Boys" gave here owing to a number of other attractions which were billed for the same evening. A paper is now being circulated among the business men of the city in an endeavor to make up the thirty dollars which they are behind at present, for, although one hundred and seven dollars were taken in at the entertainment the expenses were more than the receipts.

At present also, a hall for drill is needed and because of the deficiency in money to cover the running expenses of the Scout American War Veterans' hall—which has been offered to them, but the boys will make some sort of shift until they can secure more money and as soon as a new leader is chosen will probably accomplish a great deal before winter sets in.

**THE OLD-FASHIONED GIRL.**

The old-fashioned girl who used to lean up against the family ironing and under her own bed is getting about as hard to locate as a bar of non-floating soap in a bath tub. You can ask a girl of the 1911 model to rinse the dinner dishes or hang out the wash and she will give you a look that would curdle the contents of a Mason jar. It has gotten so nowadays that all a girl from our first families wants to do is to feed fudge into her system and try out a consignment of bubble skirts.

The girl who has been allowed to entertain a household of spindle-legged suitors and bent a department store piano into a state of coma six evenings a week, while ma looks pleasant and does up the work, is as hopelessly outclassed in the social whirl as a Percheron draft horse in the free-for-all trot.

No girl is considered thoroughly up to date nowadays unless she knows the first name of every traveling man who makes the burg and indulges love's young dream by carrying on a perfumed correspondence that would choke a business college.

The girl whose head is full of 50-cent fiction and the next bargain sale of gauze hose will never have to shoot a line of eligible bachelors off the front porch with a broom for fear that somebody will drag her up to the altar in a tulle veil and a rented tiara.

Yet some people wonder why men don't marry.

Janesville Aerle, No. 724 Fraternal Order of Eagles have secured the Bostonia Ladies Orchestra to give a concert at Myers Theater next Sunday evening November 5. The entertainment is the first of a series planned by the local lodge to raise funds for the convention and celebration of the Grand State Aerle which will be held in this city next June.

To the large number of persons in Janesville who enjoy orchestra music the announcement of the coming of this peerless aggregation of musicians will be enthusiastically received.

**TOOK MARRIAGE VOWS AT PARSONAGE YESTERDAY.**

Fred O. Sproll of Cincinnati, Ohio, and Miss Elsie May Hunsinger of Brownsville, Pa., were united in marriage by Rev. J. W. Laughlin at the Presbyterian parsonage, at four o'clock yesterday afternoon. The contracting parties were members of a show troupe which had stopped in the city for a short time.

**Character Above All.**

Young man, character is worth more than money, character is worth more than anything else in this wide world. I would rather have it said of me in my old age than to have a monument of pure gold built over my dead body reaching from earth to heaven—I would rather have it said that "they could find no occasion against him except it be touching the law of his God," than to have all this world can give.—Dwight L. Moody.

## CONSTIPATION, BILIOUSNESS, COATED TONGUE, HEADACHE OR BAD STOMACH

Furred Tongue, Bad Taste, Indigestion, Sallow Skin and Miserable Headaches come from a torpid liver and clogged bowels, which cause your stomach to become filled with undigested food, which sours and ferments like garbage in a swill barrel. That's the first step to untold misery—indigestion, foul gases, bad breath, yellow skin, mental fears, everything that is horrible and nauseating. A Cascaret tonight will straighten you out by morning—a 10-cent box will keep you feeling good for months. Millions of men and women take a Cascaret now and then to keep their stomach, liver and bowels regulated and never know a miserable moment. Don't forget the children—their little insides need a good, gentle, cleansing, too, occasionally.

## SCENE FROM "THE DEEP PURPLE"

Wilson Mizner, collaborator with Paul Armstrong in "The Deep Purple," the latest Chicago and New York success, which will be seen here soon, has seen Europe and is disappointed with it. As to Paris says Mr. Mizner: "Paris is like a cheap, middle-class Western street fair, with stucco set and all the performers ready to skin the ruralite."

Our nouveau riche have educated the Parisians. Once petty larceny was the height of their ambition. Now it is grand larceny. They think Providence created the Americans especially to come to Paris to be trimmed. If they would what the shell game was they would put it in the "Louvre."

"The Deep Purple" will be seen at Myers Theater, Friday, Nov. 3.

## Deaf and Dumb Strikers.

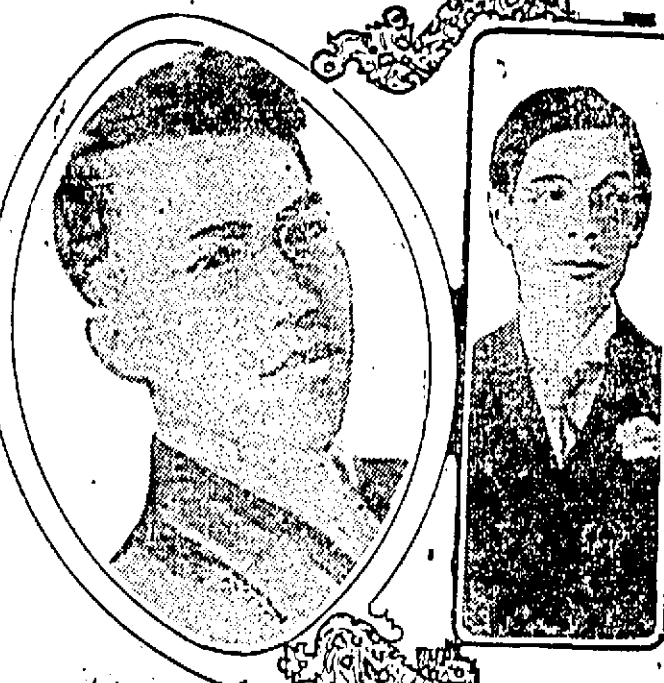

Remarkable was a strike of deaf and dumb workmen in Australia. These silent workers had a strong union, and when they gathered in the street around the beleaguered factory and excitedly began to wriggle their fingers at each other the sight was worth seeing. It is said that much unlawful and riot provoking language was used without one word being spoken.

## CHINESE IN SAN FRANCISCO ORGANIZE REVOLUTIONARY PARTY.

One of the most prominent leaders in the Chinese Revolutionary Party of San Francisco, Lau Kok Hall, one of the secretaries of the Chinese National Association, Tong King Chong, one of the advisers of Dr. Sun Ya Sen.

San Francisco, Cal.—Dr. Sun Ya Sen, organizer and leader of the Young China Club, the man slated by his local followers for first provincial president of New China, if the revolutionists win, is actively organizing the Young Chinese who have immigrated to America in behalf of the revolutionary party. He hopes to negotiate a loan of \$5,000,000 among a number of private financiers in New York with which to pay the rebel army and to purchase ammunition. This is one of a number of loans which he believes to realize.

In San Francisco he has a well organized cabinet of advisers, chief among whom are Lau Kok Hall and Tong King Chong. Owing to fear of reprisal on the part of the Chinese government, a number of Dr. Sun's assistants fear to reveal their identity. Among them are said to be a number of wealthy Chinese merchants. These Young Revolutionists in America stand ready to return and fight in China, or to furnish the money of war as their funds allow. They are loyal to the cause of New China.

## God's Purpose.

If your life seems empty and unfulfilling, it means that you have not yet realized God's purpose for you and in you. "Set yourself earnestly to see what you were made to do, and then set yourself earnestly to do it; and the loftier your purpose is the more sure you will be to make the world richer with every enrichment of yourself."—Detroit Free Press.

## An Old Habit.

The physician who attributes the lying habit to the use of cigarettes forgets that the habit antedates the manufacture of the "smoke weed."

## Spruce Becoming Scarce.

The demand for paper has made the supply problem one that has grown and is growing rapidly. There has never been an era like the present for cheap printed matter. This is the day of the newspaper; the newspaper needs wood-pulp paper. The drain upon the spruce forests is so great that there may be a famine of that wood. Therefore an effort is being made to get another wood to replace it—a hard thing to do, since spruce is admittedly superior to others.

## Eagle Carried Off Lobster.

An eagle measuring four feet from tip to tip swooped down on a clam bake being held at Highland Lake, near Winsted, Conn., and sailed away with a lobster in its talons. The lobsters were in a pan ready to be put on the fire. While the eagle was devouring its prey in a tree a-half mile away, a shot wounded its wing.

**Tragic Waste.**  
How tragically the resources of a great nation may be wasted! Great Britain spent £242,000,000 in 25 years in the "relief" of its paupers. The same amount used with common-sense might have transplanted all these paupers—say, to some cluster of islands in the Pacific—and created a new and happy community there—Life, Melbourne.

## Remarkable.

A celebrated actress, fresh and youthful looking, was in the habit of invariably taking 18 years from her age. She was called once in a law case and gave the usual response. Her son was called immediately after and on being asked his age, he replied, promptly: "Six months older than my mother."—H. Riss.

# FORTY YEARS AGO

The Janesville Daily Gazette, Wed-  
nesday, November 1, 1871.—The "Hon-  
or of Wisconsin" roars in Milwaukee this  
evening. Washburn will be there to  
quell the fears of the people with  
wholesome words.

In pursuance of a settlement by  
the parties, the will of Timothy Jack-  
man was admitted to probate by the  
circuit court for Racine county yes-  
terday morning. By this settlement  
the first four children have received  
in addition to what they take under  
the will, three hundred and twenty  
acres of land in the town of Harmony,  
and six thousand five hundred dollars  
in money. Each party pays their  
own costs. The testimony developed  
by the trial in this case shows the  
estate to be worth \$140,000. Placing  
a valuation of fifty dollars an acre on  
this land, the contestants receive, by  
this settlement, \$22,500. In addition  
to this Noyes and John Jackman take,  
under the will, eighty acres of land  
each, and Abram Jackman and Mrs.  
Lappin, \$1,000 each.

Colonel E. Miller, formerly post-  
master of Janesville, is in the city. He  
is here for the purpose of placing his  
patent car platform, couplers and  
buffers on the cars of the Chicago &  
Northwestern road, having partially  
closed a contract to that effect with  
the officials of the road. The Colonel  
has supplied most of the passenger  
rolling stock of the east with his  
valuable invention, and the numerous  
testimonials received by him from  
the leading railroad men place, be-  
yond a doubt, the efficiency of this  
life saving appliance. Anything  
which will mitigate the destructiv-  
ness of railway accidents is a blessing  
to mankind and we are gratified to  
know that Colonel Miller's invention  
is being generally adopted in the west.  
It has been so thoroughly tested that  
there can be no doubt of the benefits  
to be derived from its use.

Farmers report an unusual yield of  
corn this season, the quality being ex-  
cellent. Not more than one-third of  
the crop is now harvested.

The streets are crowded with teams  
today and business is lively.

I went down town one night this  
week, to hear a great and good man  
speak—a famous man of high estate,  
whose views on current topics have  
weight. The hall was  
packed with ladies  
and gentlemen who gladly  
blew their fifty cents  
to see and hear a man of fame who  
figures in the world's big game. The  
clock at last struck half past eight;  
then Stokes, a local water-weight,  
got up to introduce the guest; he bow-  
ed, his hand upon his breast, and  
started in—we thought he'd quit in  
less than fifteen minutes. NIG! He  
had us where we couldn't flee, and  
plunged us deep in misery. He touched  
on all things in his talk; on Lexing-  
ton and Plymouth Rock, on setting  
hens and village choirs, and on the  
green graves of our sires, on tariff  
schedules and the way to find a mar-  
ket for our wares. The hours wore on,  
the clock broke down, the lights went  
out through all the town; he talked  
until the daylight came, and when he  
quit the man of fame was lyfuk  
senseless on the floor, knocked

Saved His Hat.  
Michael Meehan was the proud pos-  
sessor of a brand-new silk hat. At the  
wake of his dearest enemy he had  
guarded it carefully, and as a conse-  
quence was strolling home with the  
hat unscathed. As he passed the site  
of a building operation, a lady ac-  
quaintance nodded pleasantly. With  
an ostentatious wave of the hat, which  
exhibited it to excellent advantage,  
Michael bowed. At the same moment  
a brick sailed down from an upper  
floor and bounced from his bare skull.  
Upon coming to he inquired anxiously  
for the hat. A bystander restored it  
unharmed. Mike felt the egg-sized  
lump on his head occasioned by the  
impact of the brick, and then regard-  
ed his undamaged tile. "Begorry," he  
sighed in satisfaction, "it's lucky it is  
saw the lady in toime."—Lippincott's.

Blind people are now permitted to  
ride free on the street cars of Glas-  
gow, Scotland. The local town coun-  
cil has distributed a supply of brass

## MISS MINERVA and WILLIAM GREEN HILL

By FRANCES BOYD CALHOUN

(Copyright by Nellie & Britton Co.)

"I expect he just looks like the three-headed giant in 'Jack the Giant Killer,'" explained Jimmy, "because he's got three heads and one body. His heads are Papa, Papa, Son and Holy Ghost, and his body is just mine!" plain God. Miss Cecilia explained it all to me and she is 'bout the spiciest 'splainer they is. She's my Sunday school teacher."

"She's going to be my Sunday school teacher, too," said Billy, solemnly.

"You're nothing; you all time want my Sunday school teacher."

"Jimmy!" called a voice from the interior of the house in the next yard.

"Somebody's a-calling you," said Billy.

"That ain't nobody but mamma," explained Jimmy composedly.

"Jimmy-ee!" called the voice.

"Don't make no noise," warned that little boy; "maybe she'll give up forreokly."

"You Jimmy!" his mother called again.

Jimmy made no move to leave the swing.

"I don't never have to go 'less she says 'James Lafayette Garner,' then I got to hustle," he remarked.

"Jimmy Garner!"

"She's mighty near got me," he said softly; "but maybe she'll get tired and won't call no more. She ain't plumb mad yet."

"James Garner!"

"It's coming now," said Jimmy dolefully.

The two little boys sat very still and quiet.

"James Lafayette Garner!"

The younger child sprang to his feet.

"I got to get a move on now," he said; "when she calls like that she means business. I better get a switch and a hair brush and a slipper in her hand right this minute. I'll be back forreokly," he promised.

He was as good as his word, and in a very short time he was sitting again facing Billy in the swing.

"Who just wanted to know where her embroidery scissors was," he explained. "I don't matter what's lost in that house, I'm always the one that's got to be 'sponsible and all time got to go look for it."

"Did you find 'em?" asked Billy.

"Yep; I went right straight where I left 'em yestoday. I had 'em tryin' to cut a piece of wire. I stole off and went down to Sam Lamb's house."

and you want Sam Lamb. Well, you just ain't going to have 'em. You got to get somebody else for your partner and sweetheart."

"Well, you just wait an' see," said Billy. "I got Major Minerva."

"Shucks, they ain't no major name that away," and Jimmy changed the subject. "Sam Lamb's got seven little pigs. He let me see 'em suck," said Sam Lamb's partner proudly.

"He's got a cow, too; she's got the worstest horns ever was. I believe she's a steer anyway."

"Shucks," said the country boy, contemptuously. "You do know a steer when you see one; you can't milk no steer."

### CHAPTER V.

Turning on the Hose.

"Look! Ain't that a snake?" shrieked Billy, pointing to what looked to him like a big snake coiled in the yard.

"Snake, nothing!" sneered his companion, "that's a hose. You all time got to call a hose a snake. Come on, let's sprinkle," and Jimmy sprang out of the swing, jerked up the hose and dragged it to the hydrant. "My mamma don't never 'low me to sprinkle with her hose, but Miss Minerva she's so good I don't reckon she'll care," he cried mendaciously.

Billy followed, watched his companion screw the hose to the faucet and turn the water on. There was a hissing, gurgling sound and a stream of water shot out, much to the rapture of the astonished Billy.

"Won't Aunt Minerva care?" he asked, anxiously. "Is she a real 'frighten' 'oman?"

"She is the Christiestest woman they is," announced the other child. "Come on, we'll sprinkle the street—and I don't want nobody to get in our way neither."

"I wish Wilkes Booth Lincoln could see us," said Miss Minerva's nephew.

A big, fat negroes, with a bundle of clothes tied in a red table cloth on her head, came waddling down the sidewalk.

Billy looked at Jimmy and giggled; Jimmy looked at Billy and giggled; then, the latter took careful aim and a stream of water hit the old woman squarely in the face.

"Who dat? What's yo' doin'?" she yelled, as she backed off. "I's a-gwino to tell yo' pappy, Jimmy, Garner," as she recognized one of the culprits.

"Int dat ar hose, way from me, fo'!"

"All right," agreed Billy, his good humor restored, "let's baptize him good."

"Oh, we can't baptize him," exclaimed the other little boy, "because he's a Jew and the Bible says not to baptize Jews. You got to memorize 'em. How come me to know so much?" he continued condescendingly.

"Miss Cecilia taught me in the Sunday school. Sometimes I know so much I feel like I'm going to bust. She taught me 'bout 'Scufio little children and forbid them not,' and 'bout 'Ananias telled Sapphira he done it with his little hatchet,' and 'bout 'Lilja jumped over the moon in a automobile.' I know everything what's in the Bible. Miss Cecilia sure is a crack-jack; she's 'bout the stylishest Sunday school teacher they is."

"Twas the cow jumped over the moon," said Frances, "and it isn't in the Bible; it's in 'Mother Goose.'"

"And Elijah went to heaven in a chariot of fire," corrected Lina.

"And I know all 'bout Gabriel," continued Jimmy, unabashed. "When folks called him to blow his trumpet he was under the haystack fast asleep."

They were quite near by this time to command the attention of the four children.

"Let's memorize 'Goose-Grass,'" yelled Jimmy, as he turned the stream of water full upon him.

Frances, Lina and Billy clapped their hands and laughed for joy.

With a terrified and angry shriek their victim, dripping water at every step, ran howling by his tormentors. When he reached a safe distance he turned around, shook a fist at them and screamed back:

"My pappy is going to have you all arrested and locked up in the calaboose."

"Calaboose, nothing!" jeered Jimmy. "You all the time wanting to put somebody in the calaboose 'cause they me-

morize you. You got to be memorized 'cause it's in the Bible."

A short, stout man, dressed in neat black clothes, was coming toward them.

"Oh, that's the major!" screamed Billy delightedly, taking the hose and squaring himself to greet his friend of the train, but Jimmy jerked it out of his hand, before either of them noticed him turning about, as if for something forgotten.

"You ain't got the sense of a one-eyed tadpole, Billy," he said. "That's Miss Minerva's beau. He's been loving her more'n a million years. My mamma says he ain't never going to marry nobody a tall 'bout he can get Miss Minerva, and Miss Minerva she just turns up her nose at anything that wears pants. You better not sprinkle him. He's been to the war and got his big toe shot off. He hit 'bout a million Japs and Yankees and he's name 'Major 'cause he's a Confed'rit vetran. He went to the war when he ain't but fourteen."

"Did he have on long pants?" asked Billy. "I call him Major Minerva—"

he said, calmly.

"Your chums, nothing!" angrily cried Jimmy, swelling up pompously. "You all time trying to claim my chums. I can't have nothing a tall 'bout you got to stick your mouth in. You 'bout the selfishest boy they is. You want everything I got, all time."

"The little girls were now quite near and Jimmy halted them gleefully, forgetting of his anger:

"Come on, Lina, you and Frances," he shrieked, "and we can have the mostest fun. Billy here's done come to live with Miss Minerva and she's done gone uptown and don't care if we sprinkle, 'cause she's got so much 'frighten'."

"But you know none of us are allowed to use a hose," objected Lina.

"But it's so much fun," said Jimmy; "and Miss Minerva she's so Christian she ain't going to raise much of a rough house, and if she do we can run when we see her coming."

"I can't run," said Billy; "I ain't got nowhere to run to an'—"

"If that ain't just like you, Billy," interrupted Jimmy, "all time talking

memorize you. You got to be memorized 'cause it's in the Bible."

## To the Ladies of Janesville and Vicinity:

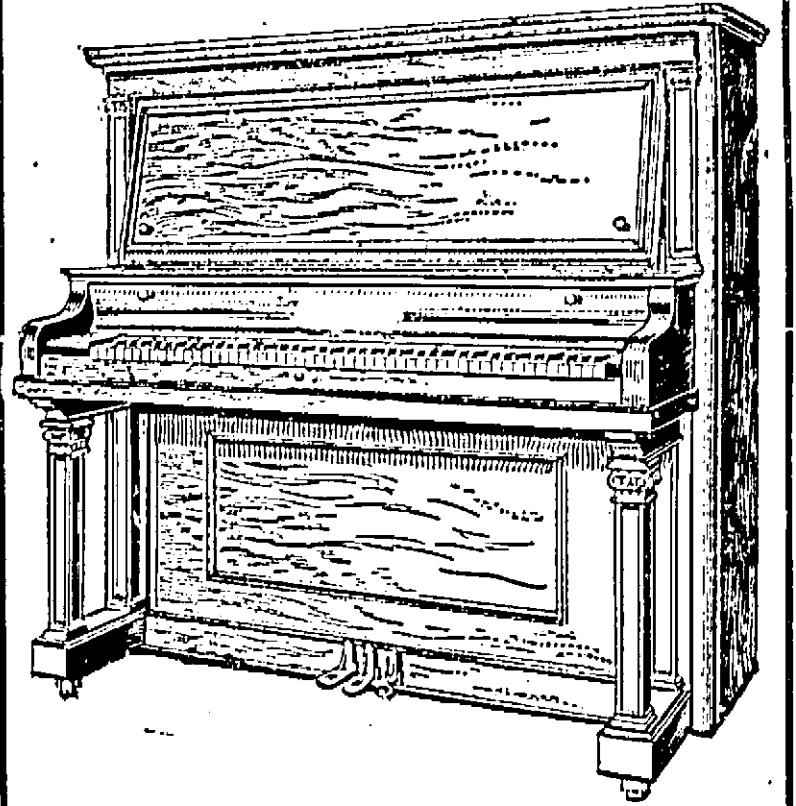

### One Overland Touring Car as the Capital Grand Prize

The Overland Touring car is model 59 T, 30 h. p., 5 passenger. It is a 1912 product, fully equipped with tops, gas lamps, wind shields, etc. It has been purchased of Sykes & Davis, representatives

### Three \$350 Pianos

First Prizes, One to Each District

## General Information

**WHO IS ELIGIBLE?** Any lady of any age, married or unmarried, is eligible to compete for these prizes, but each lady must live in the territory in which her name is listed. Employees of The Gazette are barred. Fill in your name, or that of a friend, on the nomination blank and send it to The Gazette office. It costs nothing to enter and participate in this great event. Names of all candidates nominated will be published for the first time on November 6.

Each of the three districts will receive one piano, one diamond ring, one scholarship and one watch, regardless of the number of votes cast in any of the other districts. One automobile will be awarded to the lady credited with the greatest number of votes in any district. Districts are not brought into competition except for the automobile.

This prize campaign begins October 30, 1911, and on the closing night, Dec. 23, 1911, the ladies having the greatest number of votes, in their respective districts, after the awarding of the automobile, will receive the 3 pianos, the next 3 highest the three diamonds, etc. In case of a tie the value of the prize will be equally divided.

Any question that may arise between candidates will be settled by The Gazette, and by the filing of votes, all candidates agree to all conditions.

Votes issued to one candidate cannot be changed to the credit of another candidate.

A committee of four Janesville bankers and the candidates themselves, will be chosen to judge the finish of this prize campaign, and will assemble for that purpose after the close of the campaign.

The winning of these valuable prizes is a QUESTION OF VOTES. Read the article—How to Obtain Votes.

## How to Obtain Votes

Beginning last evening each issue of The Gazette will contain a coupon counting 10 votes. These may be filled out with the name of any candidate and, when sent to The Daily Gazette office, will each add 10 votes to her published count. Any person may vote them for any candidate or a candidate may vote them for herself. Each coupon bears a date and must be voted before the expiration of that date.

Each time a candidate is nominated or each time a nomination blank is received in favor of a candidate it will add an additional 25 votes to her published standing. Each candidate should have her friends save all the nomination blanks as well as coupons that appear in their copies of The Gazette. After a candidate is once nominated all that is necessary, on the blank, is the candidate's name.

Votes are given on all subscription payments, both new and old, according to this scale.

Any person, home or office taking The Gazette at the beginning of this campaign, will be classed as an old subscriber. All others will be classed as new.

Contestants are not restricted to getting votes or subscriptions in their own particular district or territory, but may secure subscriptions, nomination blanks and coupons in any part of Janesville and vicinity.

Votes can not be purchased. They are given only on subscription payments to The Gazette.

Names of candidates will first be published on Monday, November 6, 1911. Your name should be in the list on this first publication.

### THREE DIAMOND RINGS

Second Prizes—One to Each District.

The three ladies receiving the second highest number of votes, in their respective districts, will each receive one Diamond Ring.

These diamonds are perfect white stones, each of guaranteed \$80 valuation. . .

The Janesville jeweler, from whom purchased, to be announced later.

### THREE BUSINESS SCHOLARSHIPS

Third Prizes—One to Each District.

The three ladies receiving the third highest number of votes, in their respective districts, will each receive one Business College Scholarship.

These scholarships are for 28 weeks of instruction in the course the winner might select (\$60 each) in the Janesville or Beloit Business College.

### THREE SOLID GOLD WATCHES

Fourth Prizes—One to Each District.

The three ladies receiving the fourth highest number of votes in their respective districts, will each receive one Gold Watch.

These watches are 15 Jewel, Elgin movements, encased in solid gold cases. The Janesville jeweler, from whom purchased, to be announced later.

## Division of Territory

For this event, territory covered by The Gazette, has been divided into three districts, Numbers 1, 2 and 3.

### DISTRICT NO. 1

Includes all territory within the city limits of Janesville.

### DISTRICT NO. 2

Includes all territory outside the city of Janesville and west of the Rock river.

### DISTRICT NO. 3
